### **Background to the Company**

### Description

OneShare Plc (the "Company") is authorised by the Central Bank of Ireland as an open-ended umbrella investment company with variable capital and segregated liability between funds and incorporated with limited liability in Ireland under the Companies Act 2014 (including amendments by the Companies (Accounting) Act 2017), with registration number 476935 and established as an undertaking for collective investment in transferable securities pursuant to the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

The Company was incorporated on 29 October 2009 and is structured as an umbrella fund consisting of different Funds each comprising of one or more Share Classes. The assets of each Fund are invested separately on behalf of each Fund in accordance with the investment objective and policies of each Fund. There is segregated liability between the Funds. Accordingly, any liability incurred on behalf of or attributable to any Fund of the Company shall be discharged solely out of the assets of that Fund.

The following Funds have been approved by the Central Bank of Ireland:

	Approval Date	Launch Date
FAB MENA Dividend Leader Fund	18-Jan-13	13-Mar-13

For the purpose of clarity, when a reference is made to Fund in the financial statements, it refers to any of the 6 Funds within the Company. When used in the plural form, it refers to the aggregate of the Funds in the Company and when a reference is made to the Company, it refers to OneShare Plc.

### **Investment Objective and Policy**

### FAB MENA Dividend Leader Fund

The investment objective of the Fund is to provide attractive levels of income by predominantly investing in fundamentally strong dividend paying companies with some prospect of capital gains over the medium term.

The Fund aims to achieve this investment objective by investing primarily in equities and/or equity-related securities (such as participatory notes (also known as P-Notes) which give indirect exposure to equities in which the Fund may invest directly, convertible bonds, American depository receipts ("ADRs") and global depository receipts ("GDRs")), listed or traded on recognised exchanges worldwide, of strong dividend paying companies domiciled in Middle Eastern and North African ("MENA") countries, Turkey and India and/or companies which derive a significant proportion of their revenues or profits from, or have a significant portion of their assets in MENA countries, Turkey and India. The Fund may have exposures in excess of 30% of the Net Asset Value of the Fund in emerging markets.

The base currency of the Fund is US Dollars ("USD"). The Net Asset Value per Share will be published and settlement and dealing will be effected in the designated currency of each Share Class.

### FAB MENA Bond Fund

The investment objective of the Fund is to provide attractive levels of income with some prospect of capital gains over the medium term.

### Investment Objective and Policy (continued)

### FAB MENA Bond Fund (continued)

The Fund aims to achieve this investment objective primarily through investment in a broadly diversified range of money market instruments and/or debt securities (including inter alia notes (with a maturity from the date of issue of longer than one year but less than ten years), structured notes, participatory notes, bills and bonds) issued by governments, institutions and corporations in MENA countries, Turkey and India and/or corporations which derive a significant proportion of their revenues or profits from, or have a significant portion of their assets in MENA countries, Turkey and India. The Fund may have exposures in excess of 30% of the Net Asset Value of the Fund in emerging markets.

The Investment Manager selects money market instruments and debt securities based on fundamental research reports and assessment of other technical parameters such as liquidity, credit rating and relative value analysis. Such debt securities, which may have fixed or floating rates of interest, may be rated or unrated and will be listed on or dealt in recognised exchanges worldwide. Where rated, the debt securities will have a credit rating of B- or above as rated by Standard & Poor's or an equivalent rating by Moody's or Fitch or as determined by the Investment Manager.

The base currency of the Fund is US Dollars ("USD"). The Net Asset Value per Share will be published and settlement and dealing will be effected in the designated currency of each Share Class.

#### FAB Balanced Allocation Fund

The investment objective of the Fund is to provide long-term total returns consistent with a moderate level of risk. This is based on weightings of investment in underlying funds with varying degrees of risk.

The Fund aims to achieve this investment objective primarily through investment in investment funds which provide exposure principally to equities, debt securities, money market instruments, currencies and/or alternative investments (i.e. commodities, real estate properties and hedge funds). Although the Investment Manager proposes to primarily obtain these exposures through investment in investment funds, it may occasionally invest directly in equities, debt securities and money market instruments in order to achieve the ranges set out in the Supplement (i.e. where it is not possible to gain exposure through investment in investment funds).

Investment in equities will consist of shares of companies listed on or dealt in recognised exchanges worldwide. There is no geographic or sectorial bias intended. The Fund may have exposures in excess of 30% of the Net Asset Value of the Fund in emerging markets. Any investment in debt securities will include government and/or corporate bonds which may have fixed or floating rates of interest and which need not be of investment grade. Such debt securities may be listed on or dealt in recognised exchanges worldwide.

The base currency of the Fund is US Dollars ("USD"). The Net Asset Value per Share will be published and settlement and dealing will be effected in the designated currency of each Share Class.

#### FAB Conservative Allocation Fund

The investment objective of the Fund is to provide long-term total returns consistent with a low level of risk. This is based on weightings of investment in underlying funds with varying degrees of risk.

The Fund aims to achieve this investment objective primarily through investment in investment funds which provide exposure principally to equities, debt securities, money market instruments, currencies and/or alternative investments (i.e. commodities, real estate properties and hedge funds). Although the Investment Manager proposes to primarily obtain these exposures through investment in investment funds, it may occasionally invest directly in equities, debt securities and money market instruments in order to achieve the ranges set out in the Supplement (i.e. where it is not possible to gain exposure through investment in investment funds).

Investment in equities will consist of shares of companies listed on or dealt in recognised exchanges worldwide. There is no geographic or sectorial bias intended. The Fund may have exposures in excess of 30% of the Net Asset Value of the Fund in emerging markets. Any investment in debt securities will include government and/or corporate bonds which may have fixed or floating rates of interest and which need not be of investment grade. Such debt securities may be listed on or dealt in recognised exchanges worldwide.

The base currency of the Fund is US Dollars ("USD"). The Net Asset Value per Share will be published and settlement and dealing will be effected in the designated currency of each Share Class.

### **Investment Objective and Policy (continued)**

### FAB Growth Allocation Fund

The investment objective of the Fund is to provide long-term total returns consistent with a high level of risk. This is based on weightings of investment in underlying funds with varying degrees of risk.

The Fund aims to achieve this investment objective primarily through investment in investment funds which provide exposure principally to equities, debt securities, money market instruments, currencies and/or alternative investments (i.e. commodities, real estate properties and hedge funds). Although the Investment Manager proposes to primarily obtain these exposures through investment in investment funds, it may occasionally invest directly in equities, debt securities and money market instruments in order to achieve the ranges set out in the Supplement (i.e. where it is not possible to gain exposure through investment in investment funds).

Investment in equities will consist of shares of companies listed on or dealt in recognised exchanges worldwide. There is no geographic or sectorial bias intended. The Fund may have exposures in excess of 30% of the Net Asset Value of the Fund in emerging markets. Any investment in debt securities will include government and/or corporate bonds which may have fixed or floating rates of interest and which need not be of investment grade. Such debt securities may be listed on or dealt in recognised exchanges worldwide.

The base currency of the Fund is US Dollars ("USD"). The Net Asset Value per Share will be published and settlement and dealing will be effected in the designated currency of each Share Class.

#### FAB Shariah MENA Dividend Leader Fund

The investment objective of the Fund is to provide attractive levels of income through investing in Shariah compliant fundamentally strong dividend paying companies with the prospect of capital gains over the medium term.

The Fund aims to achieve this investment objective by investing in Shariah compliant equities and/or equity related securities (such as participatory notes, warrants which give indirect exposure to Shariah compliant equities in which the Fund may not invest directly due to regulatory restrictions, convertible bonds, ADRs and GDRs), listed or traded on recognised exchanges worldwide, of strong dividend paying Shariah compliant equities of companies domiciled in the Middle East and North African countries, Turkey and India and/or Shariah compliant companies which derive a significant proportion of their revenues or profits from, or have a significant portion of their assets in MENA countries, Turkey and India.

The Shariah Advisor shall provide ongoing supervision and guidance to the Investment Manager and shall monitor the investments of the Fund to ensure that such investments are in compliance with the principles of Shariah law and shall issue a Fatwa as and when is necessary in accordance with the Shariah Consulting Agreement.

Following the guidance of the Shariah Advisor, the Investment Manager will use reasonable endeavours to ensure that the Fund follows its investment objective and policies in a Shariah compliant manner in respect of the Fund's investments provided the Investment Manager shall at all times ensure the Fund complies with the UCITS Regulations and the investment restrictions set out in the Prospectus.

Where appropriate, the Investment Manager will seek Shariah advice in connection with the investment objective and policies of the Fund or any other matter related to Shariah compliance of the investments of the Fund.

The base currency of the Fund is US Dollars ("USD"). The Net Asset Value per Share will be published and settlement and dealing will be effected in the designated currency of each Share Class.

#### Net Asset Value

The Net Asset Value of each Fund or, if there are different Share Classes within a Fund, each Share Class is calculated by the Administrator as at the valuation point (3.00pm United Arab Emirates time on each dealing day or such time as determined by the directors with the agreement of the Administrator from time to time for the Funds) on, or with respect to, each dealing day (each business day when all significant markets are open or such other day(s) as may be determined by the directors and with the agreement of the Administrator and notified in advance to Shareholders provided that there shall be at least one dealing day per fortnight) in accordance with the Articles of Association of the Company.

#### Net Asset Value (continued)

The Net Asset Value of a Fund is determined as at the valuation point for the relevant dealing day by valuing the assets of the relevant Fund and deducting the liabilities of the relevant Fund. The Net Asset Value attributable to a Share Class shall be determined as at the valuation point for the relevant dealing day by calculating that portion of the Net Asset Value of the relevant Fund attributable to the relevant Share Class as at the valuation point subject to adjustment to take account of assets and/or liabilities attributable to the Share Class.

Accordingly, the Net Asset Value per Share of the different Share Classes can differ within each Fund as a result of the declaration/ payment of dividends, differing fee and cost structure for each Share Class. The Net Asset Value of a Fund is expressed in the base currency of the Fund, or in such other currency as the directors may determine either generally or in relation to a particular Share Class or in a specific case.

The Net Asset Value per Share shall be calculated as at the valuation point on or with respect to each dealing day by dividing the Net Asset Value of the relevant Fund or Share Class by the total number of Shares in issue or deemed to be in issue in the Fund or Share Class at the relevant valuation point and rounding the resulting total to four decimal places.

#### Distributions

The directors are empowered to declare and pay dividends on Shares issued in any Share Class or Fund in the Company. The dividend policy for each Fund or Share Class will be set out in the relevant Supplement.

The FAB Balanced Allocation Fund, the FAB Conservative Allocation Fund, and the FAB Growth Allocation Fund are all accumulating Funds and, therefore, do not intend to distribute dividends to the Shareholders. The income, earnings and gains of each Fund will be accumulated and reinvested on behalf of Shareholders.

The FAB MENA Dividend Leader Fund, the FAB MENA Bond Fund and the FAB Shariah MENA Dividend Leader Fund have accumulating and distributing Share Classes. For the accumulating Share Classes, it is intended that, in the normal course of business, distributions will not be declared and that any net income attributable to each accumulating Share Class will be accumulated daily in the Net Asset Value per Share of each respective Share Class. For the distributing Share Classes, the amount available for distribution of each Fund shall be the net income of the Fund attributable to the distributing Share Classes of the Fund whether in the form of dividends, interests or otherwise. At the discretion of the directors, distributions will be made on a semi-annual basis in relation to the distributing Share Classes.

#### **Published Information**

The Net Asset Value per Share will be made available on the internet at <u>https://www.bankfab.ae/en/invest/our-funds/navs</u> and updated following each calculation of the Net Asset Value. In addition, the Net Asset Value per Share will be available from the offices of the Administrator during normal business hours. The Net Asset Value per Share shall also be available from Bloomberg or any other third party data provider as agreed, which shall be updated following each calculation of Net Asset Value per Share for all Funds.

### **Investment Manager's Report**

### Performance

The Investment Manager confirms that there has been no change in the implementation of the investment strategy of each of the Funds.

### 1.1 Performance snapshot for the year ended 31 December 2019

#### Fund Commentary - FAB MENA Dividend Leader and FAB Shariah MENA Dividend Leader

For MENA equities, as represented by the S&P Pan Arab Composite LargeMidCap Index (SPACNUX), returned 5.43% in December, making 11.75% for the year. Saudi equities rebounded strongly last month (+6.8%), followed by Kuwait (+4.1%), with Dubai, Egypt and Morocco all ahead by more than 3%. Abu Dhabi was up 0.9%, while Oman was 1.8% lower. The region took a bullish cue from global equity markets, together with Aramco's successful IPO debut.

The Brent oil price gained 5.7% over the month, to \$66.00/barrel, helped by larger-than-expected reductions in US crude inventories, the announcement by President Trump that 'Phase 1' of the US-China trade deal should be signed on the 15 January, plus OPEC's announcement of a further 0.5 million barrel/day reduction in its oil output. A recent increase in MENA geopolitical tension has led to a further increase in prices, to \$69.70 currently.

Kuwait was the best performing MENA equity market last year, closing the year 27.6% higher. The country's sound fundamentals - solid monetary and financial credentials - and MSCI's announcement that Kuwaiti equities will enter their Emerging Market Index in May this year were the main drivers. Throughout last year our portfolios were overweight in quality Kuwaiti stocks, contributing positively to performance. Kuwait is trading at a premium to its average historic multiple, similar to other local markets prior to and during index upgrades becoming effective. We have expected valuations to overshoot, and this should continue to be price-supportive in the current half-year.

In the Saudi market, the May-October period of last year saw the majority of its prior MSCI Emerging Market Index inclusion gains given back. However, in the fourth quarter the market rallied by 12% off its October low, and closed the year 10.9% ahead on a total return basis. With the Aramco IPO completed, focus should shift to mega projects, and further reforms. As Saudi Arabia's transformation gathers pace, that should contribute positively to non-oil GDP growth, and to overall corporate profitability.

The sizable Saudi petrochemical sector underperformed the broader market last year, under the pressure of excess supply and lower prices, resulting from slower global GDP growth and overcapacity. However in December, petrochemical prices showed signs of stability, and any pick-up in global GDP growth should have a positive impact on the sector. In other sectors, the Saudi banking sector continues to benefit from strong growth in mortgages, partially offsetting the impact of lower interest rates on net interest margins.

UAE equities generated close to a 12% total return last year, composed of 9.5% for Abu Dhabi, and 14.6% for Dubai. Attractive valuations, and performances related to ongoing banking consolidation and expected positive index adjustments contributed to returns. Dubai real estate was a negative, with oversupply continuing to result in lower rental and sale prices, although off-plan sales were quite good.

The imminent UAE dividend season sees many stocks offering 5% yields or better, and this should be supportive of stock prices. Dubai Expo 2020 is likely to be a catalyst for the logistics and hospitality sectors, and for corporate UAE as a whole. The MSCI UAE Index, is trading at 9.4x earnings for the current year, and 8.9x for 2021, based on earnings growth of 4.0% and 6.1% respectively. While investors are used to such low valuations, value investors should be interested in an equities sub-class that carries a dividend yield of 5.4% for the current year, and as much as 5.8% for 2021.

Egypt was up 8.1% in 2019, with lower interest rates and improving macro fundamentals being the key catalysts for stocks. The strengthening of the Egyptian pound vs. the dollar (from USD = EGP 17.92, to 16.04 at year-end) appeared to be a fair reflection of those improved fundamentals. As elsewhere, however, Egypt's real estate sector underperformed the broader market, despite lower interest rates.

Our MENA equity fund performances were strong in 2019. Our MENA and GCC Growth strategies returned between 17.50% and 14.00%, according the terms of mandates, resulting in outperformance of their benchmarks by between 2.20% and 5.75%. Our Dividend strategies also achieved strong returns, of between 15.00% and 11.50%, outperforming benchmarks by between 4.30% and 2.67%.

Our flagship FAB MENA Growth Fund returned 14.63% in 2019, a top-quartile performance, exceeding its benchmark by 2.88%. Our other flagship, the FAB UAE Growth Fund, returned 7.40%, and was at the top of its peer-group. It outperformed its benchmark by 1.66%.

We expect 2020 to be a good year for MENA equities, driven by improving regional non-oil GDP growth, and beyond current geopolitical concerns. The SPACNUX index is currently trading at a P/E ratio of 13.6x for 2020, based on forecast earnings growth of 10.3%. The P/E is 12.7x for 2021, based on earnings growth of 4.1%, although the latter looks too conservative.

#### Fund performance review

The FAB MENA Dividend Leader Fund gave a return of 4.29% for Q4 against the benchmark return of 5.51%, thus underperforming the S&P Pan Arab Comp Large-Mid Cap Dividend Focused 10/40 Capped Index by 1.22%. The YTD return for the fund stands at 15.14% against benchmark return of 13.22%, thus an outperformance of 1.92%.

The positive attribution for the quarter came from UAE ( $\pm 1.05\%$ ), Saudi ( $\pm 0.56\%$ ), Bahrain ( $\pm 0.39\%$ ), and Qatar ( $\pm 0.25\%$ ) while negative attribution for the quarter came from Morocco ( $\pm 0.09\%$ ) and Egypt ( $\pm 0.13\%$ ).

Our overweight position in UAE provided some support for the quarter. Our position in the ADNOC Distribution, Air Arabia and ADIB added positively to the attribution. Valuations still remain supportive for the UAE market and we see some selective opportunities in the banking and real estate names providing higher dividend yield.

The FAB MENA Shariah Dividend Leader Fund gave a return of 3% for Q4 against the benchmark return of 2.5%, thus outperforming the S&P Pan Arab Comp Large-Mid Cap Dividend Focused 10/40 Capped Shariah Index by 0.49%. The YTD return for the fund stands at 11.5% against benchmark return of 8.26%, thus an outperformance of 3.24%.

The positive attribution for the quarter came from Saudi (+0.73%), Kuwait (+0.60%), UAE (+0.30%) and Qatar (+0.45%) while negative attribution for the quarter came from Morocco (-0.17%).

Our overweight position in UAE provided some support for the quarter. Our overweight position in the DIB, ADIB and underweight position in Emaar added positively to the attribution. Valuations still remain supportive for the UAE market and we do see some selective opportunities in the banking and real estate names providing higher dividend yield.

The GCC market performed strongly in Q4 2019. The GCC biggest market Saudi was up by 3.94%, also witnessing the launch of the world's largest IPO of Saudi Aramco, the world biggest oil producer. Our underweight position provided a positive attribution of 50 basis points. The reduction in Saudi positioning to underweight funded a rotation into selected Kuwaiti equities, mainly involving additions to existing favoured names.

Generally the market trades at a higher multiple during such index inclusion events and we expect the same for Kuwait, hence we remain overweight. We expect high single-digit earnings growth in Kuwait, almost certainly the highest in the GCC, helped by the trajectory of government spending, and reasonable lending growth at its banks to be supportive.

The overweight position in Egypt impacted the attribution negatively by 13 basis points, the impact was from our two overweight position in COMI (the leading bank in Egypt) and EKHO (diversified chemical) player. Inflation is expected to remain sub-dued as subsidy cuts have already taken place, suggesting further rate cuts and more equity strength are possible.

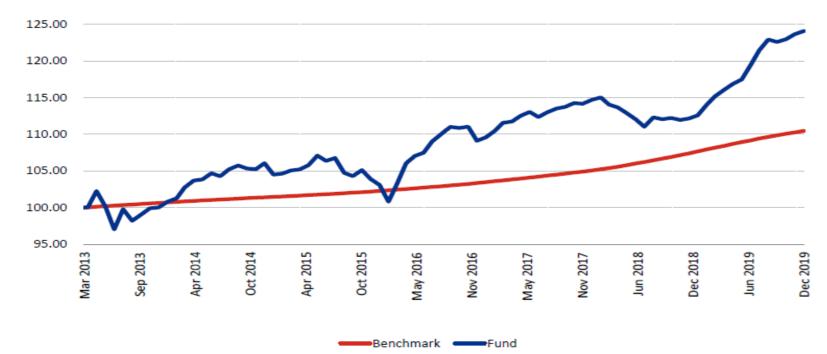

### 1.2.3 FAB MENA Bond Fund

Period	Performance (%)	Benchmark (%)	Relative (%)
1 month	0.35%	0.19%	0.16%
3 months	1.21%	0.55%	0.66%
1 year	10.22%	2.61%	7.62%
Year to date	10.22%	2.61%	7.62%

The performance is calculated based on the valuation point of 31 December 2019. Inception date: 19 March 2013

#### Fund Commentary - FAB MENA Bond Fund

In 2019, both equities and fixed income gave solid returns to investors as markets were in a risk-on-mode. Last month markets continued to move up, posting new highs once it became clear that the phase 1 of the US and China on trade deal is going to be signed on 15 January 2020. In 2019, the global economic growth slowed down in the midst of the US China trade tension, however as many central banks moved towards accommodative monetary policy, the markets reacted positively. The MSCI All Country World Index, representing developed and emerging market equities, generated 27.30%, and the Bloomberg Barclays Global-Aggregate Bond Index (unhedged for forex) had risen by 6.84%.

As we move into 2020, the world's major central banks are expected to remain on hold this year. The US Fed has already indicated that for the time being rates are expected to remain on hold. The European Central Bank's new Chair, Christine Lagarde, for one, has indicated the institution is likely to spend much of the year focused on reviewing its policy tool-kit, rather than adjusting it. The Bank of Japan is largely expected to stay on hold this year. And if the Bank of England takes any action it will only happen after Andrew Bailey takes over as the new governor in March, at the beginning of a new post-Brexit world for the UK.

We think global GDP growth forecasts could have bottomed, based partly on the better trade outlook expectations, and this should help risk asset prices perform this year. However, volatility is likely to increase this year.

In fixed income, 2019 was a good year with our fixed income portfolio giving a double digit returns. We expect US ten year yield to remain low and in the range of 1.3% to 1.9%. MENA bonds continue to offer value as their yield premiums are high relative to other similarly-rated issuers and for oil producers fiscal balances will improve from higher oil prices. In 2019 around USD 100 billion of bond issuance was done and we expect further issuance to follow with close to USD 18 billion of bonds due for maturity in 2020. Last month, high yield bonds outperformed the treasuries as markets remained in a risk-on-mode. As a strategy we continue to book profits in names where we believe the bulk of return was made and spreads have tightened. Such proceeds will be used to participate in both investment grade and high yield names in 2020, while maintaining the overall investment grade quality. We have enhanced the duration of our bond portfolios from 4.0 years in mid-2019, to 4.6 years currently.

Despite the geo political issues and the global risk off attitude by investors over the month/quarter our flagship MENA Bond Fund remained relatively resilient returning a stellar 10.22%.

Overall we expect 2020 to be a good year for both equities and bonds as we expect rates to remain on hold and the economic growth to improve as many of the impediments to global growth seen in 2019 are being removed.

#### Fund performance review

FAB MENA Bond Fund returned 1.21% in Q4 2019. For the year the Fund returned 10.22% while the broader Bloomberg Barclays GCC Credit Index returned 14.6%.

Regional credit spreads recovered some ground in Q4 from the widening seen in Q3 (attributed to increased geopolitical risks) we still closed the year however some way off from year highs of late August early September. Returns over the quarter were further constrained as investors dealt with the unabated continued issuance of regional and global debt, indeed for the first time in history the region breached total primary issuance in hard currency of USD 100 billion in a year.

As a consequence of the global trade war issues, geopolitical risk and oil price volatility continuing over the quarter we positioned the Fund defensively by keeping the overall credit rating at BBB and overall duration under 4.6 years with the view that regional risk was underpriced compared to our piers and that the yield curve would steepen.

Our quarterly performance was composed of a balanced 70/30 ratio of price return and income return. UAE and Saudi Arabia are still our top countries with a cumulative weight of 63%. The two countries contributed 50% of overall return, or gains of 46bps and 34bps respectively. Bahrain interestingly contributed to 30% of return for a country weight of 12%.

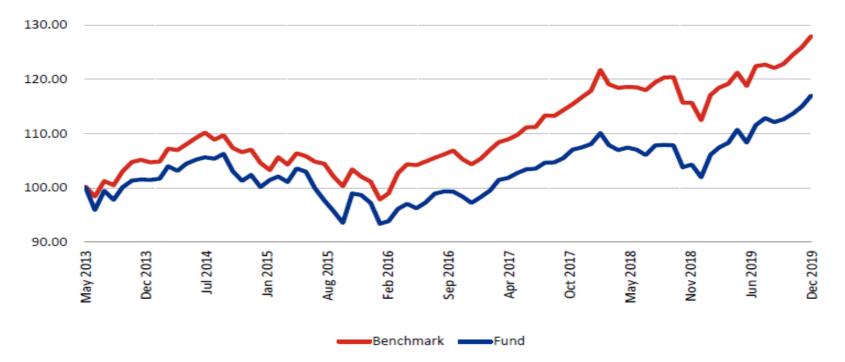

#### **1.2.4 FAB Balanced Allocation Fund**

Period	Performance (%)	Benchmark (%)	Relative (%)
1 month	1.76%	1.64%	0.13%
3 months	3.90%	4.19%	-0.29%
1 year	14.81%	13.82%	0.99%
Year to date	14.81%	13.82%	0.99%

The performance is calculated based on the valuation point of 31 December 2019. Inception date: 29 May 2013.

The Benchmark consists of; Cash/ Money Market-LIBOR, Fixed Income - BofA Merrill Lynch Indices, Equity - MSCI Indices, Alternative Investments - Bloomberg Indices and HFRX Hedge Fund Index. #### Fund Commentary – Asset Allocation Funds

The stock markets have risen to new 2019 highs over the last couple of weeks. This is due to diminishing political tensions (Brexit and hopes of a trade deal) and hopes that the growth slowdown is ending. However, investors are most motivated by the 'equities or bust' sentiment, as bonds and cash are hardly yielding any returns in real terms. Indeed, for investors to achieve return targets with liquid investments, equities are the only alternative.

At the same time, many investors aren't all that convinced, as profit growth is declining sharply and institutions such as the OECD, IMF and the World Bank continue to lower growth forecasts. However, there are some non-fundamental factors that are generating ongoing demand for equities, giving investors little reason to sell.

- Central banks are indicating that the very low to negative short-term interest rates will not be raised for the time being, and that interest rates will be reduced further if the economic situation deteriorates. Combined with the resumption of quantitative easing (QE) by the ECB and the Fed, this ensures long-term interest rates will continue to be under downward pressures, thus increasing the present value of the anticipated dividend flows and equity price levels as a result. In other words, investors are willing to pay more for equities given expectations that interest rates will continue to be very low in the future and that due to low investment activity the surplus money created by central banks every month will largely flow into the financial markets.
- At present, major parties are purchasing equities, regardless of price. This is of concern to central banks and especially businesses seeking to boost earnings per share through buybacks.
- The low interest rates and easy conditions under which businesses can borrow money from investors make it more appealing for businesses to source money by issuing bonds rather than equities or through an IPO. In addition, listed companies disappear from the stock exchange through acquisitions of private equity or other listed companies that finance acquisitions with debt, causing an even greater reduction in the number of outstanding equities in relation to investment money.

So far, the 'equities or bust' sentiment has beaten deteriorating fundamentals. In theory, this could continue in the coming months or quarters - especially in a scenario in which China and the US reach a trade agreement, trade uncertainty continues to diminish, the economy steers clear of a recession, and inflation is under little upward pressure. In this case, central banks would continue to pursue a very loose monetary policy, while governments would still be under major pressure to step up fiscal stimulus. In this climate, interest rates would not rise significantly, and, on balance, would stay negative or – in the US' case – decline further due to quantitative easing. Should this occur, P/E ratios would continue to be under upward pressure. The 'equities or bust' sentiment could then shift to a 'fear of missing out' ("FOMO") sentiment, with investors putting aside their concerns about economic fundamentals. In this climate, the upside potential for equities is still extensive.

It is difficult to indicate when this turning point might be reached. There is an increasing focus on the negative effects of the loose monetary policy. However, many investors are hoping that the continued downward pressure on growth will push governments to come to the rescue with more fiscal stimulus, allowing economies to continue growing without the support of an even more ultra-loose monetary policy. It is a risky strategy to hope for this. Growth in the US and China is still under downward pressure, even though both have implemented large-scale fiscal stimulus.

Relating to the above, this year's favourable equity and corporate bond performances are unlikely to be repeated next year. However, riskier assets will continue to perform relatively well – as long as the economy continues to grow around potential, inflation does not rise significantly, and negative shocks are absent.

#### Fund Commentary – Asset Allocation Funds (continued)

The divergence between equity prices on the one hand, and data on economic growth and profit development on the other hand, is partly due to expectations of improving growth. We also believe growth will improve somewhat, but not to the extent investors anticipate. There are a number of reasons for this, specifically:

- We believe that political uncertainty will not only continue to be extensive, but could even increase given persistent trade tensions, other forms of industrial policy, and uncertainty about how the US presidential elections will impact businesses and investors.
- The positive impact of the looser monetary policy is starting to fade and, given political resistance to higher public deficits, it will take a crisis situation for governments to step up fiscal stimulus on a massive scale. We also anticipate a tighter monetary policy by the time the Fed reduces its QE policy a few months from now.
- In the meantime, the markets have priced in a partial agreement between China and the US, meaning that an actual agreement could lead to buying the rumour and selling the news.
- Needless to say, economic growth could also surprise positively. While initially boosting riskier assets, it would subsequently lead to higher inflation expectations and speculation on earlier monetary tightening, given the already tight labour markets. Both factors would put long-term interest rates under upward pressure, in turn putting downward pressure on P/E ratios and therefore equity prices.

As long as the recession risk is considered to be limited, any declines will fairly quickly be purchased by businesses buying additional equity shares – something which also results from a strong 'buy-the-dip' mentality. Ever since 2009, it has proven very lucrative to buy equities in declines, especially when it comes to US equities.

In short, we expect risky assets to rise slightly on balance over the next weeks or months. We foresee disappointment with economic growth – and a considerably higher risk of a recession – in 2020, once it becomes evident that:

- Persistent political uncertainty continues to decelerate investment activity;
- The positive impact of monetary stimulus is falling short of expectations, and the previously-mentioned negative, lagged effects clearly emerge; and
- Hopes of additional stimulus by the Chinese government to boost global growth prove to be unfounded.

#### Fund performance review

The model portfolios used by FAB Asset Allocation Funds have returned performances of between 10.70% and 19.22% in 2019. Compared to the models' corresponding benchmarks, the strategy has seen relative out-performance of 3.27% for the Conservative, 0.99% for the Balanced, and relative under-performance of 2.09% for the Growth models, respectively.

Since the beginning of the year, the best performing holdings have been: Lyxor ETF MSCI World Information Technology TR (up 39.55%); Vontobel Fund - US Equity (up 30.60%); Morgan Stanley Investment Funds - US Advantage (up 25.53%); Xtrackers MSCI Europe UCITS ETF (up 23.53%); and UBS EFT MSCI AC Asia ex-Japan (up 18.49%).

In contrast, the worst-performing have been: Lyxor Core iBoxx \$ Treasuries 5-7Y UCITS ETF (up 5.02%); iShares USD Treasury Bond 3-7yr UCITS ETF (up 6.15%); and Standard Life - Global Absolute Return Strategies Fund (up 8.36%).

### **Directors' Report**

The directors present herewith the Annual Report and Audited Financial Statements for the year ended 31 December 2019.

### Statement of Directors' Responsibilities

The directors are responsible for preparing the Directors' Report and financial statements, in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and applicable law.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company and of its increase in net assets attributable to holders of redeemable participating shares for that year. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operation, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and profit or loss of the Company and enable them to ensure that its financial statements comply with the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company. In this regard they have entrusted the assets of the Company to a trustee for safe-keeping. They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and to prevent and detect fraud and other irregularities. The directors are also responsible for preparing a Directors' Report that complies with the requirements of the Companies Act 2014.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

### **Corporate Governance**

### Statement of Compliance with the Irish Funds Corporate Governance Code (the "IF Code")

The Board voluntarily adopted the IF Code for Irish authorised Investment Funds and Management Companies effective 31 December 2012.

The Board has put in place a framework for corporate governance which it believes enables the Company to comply voluntarily with the requirements of the IF Code, which set out principles of good governance and a code of best practice.

The Board considers that the Company has complied with the provisions contained in the IF code throughout the year.

### **Corporate Governance (continued)**

### Statement of Compliance with the Irish Funds Corporate Governance Code (the "IF Code") (continued)

The Company is also subject to corporate governance practices imposed by:

- 1. The Irish Companies Act 2014 which is available for inspection at the registered office of the Company and may also be obtained at www.irishstatutebook.ie.
- 2. The Articles of Association of the Company which are available for inspection at the registered office of the Company and at the Companies Registration Office in Ireland.
- 3. The Central Bank of Ireland in their Central Bank UCITS Regulations can be obtained from the Central Bank of Ireland's website at: www.centralbank.ie and are available for inspection at the registered office of the Company.

The Company does not apply additional corporate governance requirements beyond those required by the above.

#### Internal Control and Risk Management Systems

The Board of Directors (the"Board") is ultimately responsible for overseeing the establishment and maintenance of adequate internal control and risk management systems of the Company in relation to the financial reporting process. As the Company has no employees, all functions including the preparation of the financial statements have been outsourced. The Board on behalf of the Company has appointed Northern Trust International Fund Administration Services (Ireland) Limited as its Administrator consistent with the regulatory framework applicable to investment fund companies such as the Company.

On appointing the Administrator, the Board notes that it is regulated by the Central Bank of Ireland and in the Board's opinion, has significant experience as an administrator. The Board also notes the independence of the Administrator from the Company's Investment Manager. Subject to the supervision of the Board, the appointment of the Administrator is intended to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The statutory financial statements are required to be audited by an Independent Auditor who reports annually to the Board on their findings. The Board evaluated and discussed significant accounting and reporting issues as the need arose.

#### **Risk Assessment**

The Board is responsible for assessing the risk of irregularities whether caused by fraud or error in financial reporting and for ensuring that processes are in place for the timely identification of internal and external matters with a potential effect on financial reporting. The Board's appointment of an administrator independent of the Investment Manager to the Company and which is regulated by Central Bank of Ireland is intended to mitigate though not eliminate the risk of fraud or irregularities which may impact the financial statements of the Company.

#### Monitoring

The Board receives and reviews reports regularly (at least quarterly) on the Company from all service providers/delegates. The Board also has an annual process to ensure that appropriate measures are taken to consider and address any control weaknesses and measures recommended by the Independent Auditor.

#### **Capital Structure**

No person has any special rights of control over the Company's share capital. There are no restrictions on voting rights.

#### **Composition of the Board of Directors**

For the appointment and replacement of directors, the Company is governed by its Articles of Association and the Irish Statute comprising the Companies Act 2014. The Articles of Association themselves may be amended by special resolution of the Shareholders.

### **Corporate Governance (continued)**

### **Composition of the Board of Directors (continued)**

There are three Directors currently, all of whom are non-executive directors, and two of whom are independent of the Investment Manager (also non-executive directors) as required by the Code for investment funds. None of the directors have entered into an employment or service contract with the Company. All related party transactions during the year are detailed in Note 19 to the financial statements. The Articles of Association do not provide for retirement of directors by rotation. However, the directors may be removed by the Shareholders by ordinary resolution in accordance with the procedures established under the Companies Act 2014. A director may also be removed upon notice from the Company in accordance with the Letter of Appointment between him/her and the Company. The Board meets at least quarterly. There are no sub-committees of the Board presently.

### Ms. Yvonne Connolly

Ms. Connolly is a Principal with Carne Dublin, appointed in November 2010, and has twenty years' experience in financial services. Her specialist areas are corporate governance, product development and fund administration. Ms. Connolly has assisted investment managers and Service Providers with various aspects of change management and operational development. She also serves as a director for Irish management companies.

Prior to joining Carne, Ms. Connolly worked as an independent consultant to a number of the large service providers in Dublin for the period 2009 to 2010. From 2004 to 2009, Ms. Connolly was Managing Director of Enowine, a family wine business. In addition she was Head of Operational Development at State Street International Ireland (formerly Deutsche Bank) from 1993 to 2004. She was a member of the senior management team reporting to the CEO and a key contributor to the overall strategy and direction of the business. She was also a director of a number of investment companies.

Ms. Connolly trained as a chartered accountant with KPMG specialising in corporate taxation. She is a Fellow of the Institute of Chartered Accountants. She holds a Professional Diploma in Accounting from Dublin City University and a Bachelor of Education degree from St. Patrick's College of Education Dublin.

#### Mr. Gerald Brady

Gerald Brady is an independent, non-executive director and consultant in the regulated, international financial services industry. Mr. Brady has over 25 years experience of the funds industry, both as a director and full-time executive, and has held senior executive management positions in Bank of Bermuda, Capita Financial Group and Northern Trust. Mr. Brady has worked both abroad and in Ireland and is a past Council member of the Irish Funds (IF) and former Executive Board member of Financial Services Ireland/Irish Business and Employers Confederation (FSI/IBEC). Mr. Brady has a First Class Honours degree in Economics and is a Fellow of the Institute of Chartered Accountants of Ireland (FCA) and a Chartered Financial Analyst (CFA).

#### Mr. Omeir Jilani

Mr. Jilani is currently the Head of Alternative Investments within FAB's Global Markets Division.

Having been an integral part of establishing the Hedge Funds desk in 2008, Mr. Jilani manages the Hedge Funds portfolio for First Abu Dhabi Bank PJSC ("FAB"). He is also an active member of the Global Markets Division, representing the Division's view in the Group's Tactical Asset Allocation Committee. Since 2010, he has been a key member of the organising team for the annual Global Financial Markets Forum, where he has hosted guests such as such as Dr. Ben Bernanke, General Colin L. Powell, USA (Ret), Dr. Mohamed El-Erian, Nicolas Sarkozy, Larry Summers, Secretary James Baker, Jean-Claude Trichet, David Miliband, Niall Ferguson, Marc Faber, Paul Volcker, Axel Weber, Bob Diamond, to name a few.

Prior to joining FAB, he was a Portfolio Manager at Union National Bank ("UNB") where he was a part of the Investment Team responsible for the management of the Bank's proprietary investments of over \$1 billion, that included over \$700 million Fixed Income and Structured Products portfolio and \$150 million of Hedge Funds. Prior to UNB; he was the Investment and Development Analyst at The Private Office of His Highness Dr. Sheikh Sultan Bin Khalifa Al Nahyan (SBK Holdings) in the United Arab Emirates.

Mr. Jilani regularly speaks at Alternative Investments conferences representing asset allocators' perspectives. Mr. Jilani has earned his Honours Bachelors of Commerce (Accounting and Finance with minor in Economics) from Michael G. DeGroote School of Business, McMaster University, Hamilton (Canada) in 2001. He was awarded the Chartered Alternative Investment Analyst (CAIA) designation in March 2010.

### **Directors' Report (continued)**

### **Corporate Governance (continued)**

### **Operation of the Board of Directors**

The business address of the Directors is the registered office of the Company.

The First Bank of Abu Dhabi PJSC ("FAB") has a corporate governance committee and each of the directors detailed above have been vetted and approved by this committee before his/her application for approval to act as a director of the Company was submitted to the Central Bank.

The Board has overall responsibility for the management of the Company and supervision of its affairs. The Board meets four times a year in Dublin, typically on a quarterly basis, to oversee the general management and conduct of all aspects of the Company's business. Additional meetings may be arranged if needed, or the Board may form committees of directors to meet separately to deal with specific issues outside of normal Board meetings. Any director may request the holding of a Board meeting to discuss a specific issue.

The quorum necessary for the transaction of business of the Directors may be fixed by the Directors, and unless so fixed at any other number shall be three, and meetings are chaired either by the Chairman or where the Chairman is not physically present at a Board meeting, by one of the other directors elected from amongst those physically present at the meeting.

At its meetings, the Board reviews and sets policy for the general management and operation of the Company's Funds and oversees its service providers in the areas of administration, investment management, distribution and custody.

As a collective body, the Board has significant expertise and experience in the management, administration and distribution of investment funds and is therefore in a position to effectively conduct the business of the Company in the interests of its Shareholders. The Board is also organised and its procedures are such that no one person can decide on the direction of the Company without the endorsement of at least two other persons.

The performance of the Board and that of individual directors will be evaluated annually, which evaluation may be by the Board or external consultants. The Company shall formally review Board membership at least once every three years.

The Company delegates all investment management, administration and distribution functions to third party service providers and has appointed the Northern Trust Fiduciary Services (Ireland) Limited as the Depositary of its assets. Accordingly, the Company will not have any direct employees. The day to day investment management, distribution, administration and custody functions will be performed by experienced individuals employed by the relevant service providers, all of whom are subject to the ongoing monitoring by the Board who monitor the activities of the Company using reports provided to them on a monthly basis and quarterly basis as appropriate by the relevant service providers.

With the exception of decision making which shall remain the collective responsibility of the Board, the Board has designated responsibility for each of the following management functions (Fund Risk Management, Operational Risk Management, Regulatory Compliance, Investment Management, Distribution, Capital and Financial Management) to Carne Financial Services Limited ('Designated Person').

In accordance with good corporate governance principles, the Board as a whole will be responsible for decision making and responsibility of the management functions will be delegated to the Designated Person. Although the Board is collectively responsible for these management functions, and has itself, or through its service providers, put appropriate procedures in place to ensure their effective discharge, the Designated Person has the responsibility of monitoring the performance of the relevant management function and liaising with the Board where necessary with respect to matters relating to issues arising in the context of the relevant management functions between Board meetings and coordinating the actions of the Board in relation to each of the relevant management functions.

### **Shareholder Meetings**

The convening and conduct of Shareholders' meetings are governed by the Articles of Association of the Company and the Companies Act 2014.

The directors may convene extraordinary general meetings of the Company at any time. The directors shall convene an annual general meeting ("AGM") within six months of the end of each Accounting Period. Not less than twenty one days notice of every AGM and any meeting convened for the passing of a special resolution must be given to Shareholders and fourteen days' notice must be given in the case of any other general meeting.

### **Corporate Governance (continued)**

#### **Shareholder Meetings (continued)**

Two members present either in person or by proxy shall be a quorum for a general meeting provided that the quorum for a general meeting convened to consider any alteration to the Class rights of Shares shall be two Shareholders holding or representing by proxy at least one third of the issued Shares of the relevant Fund or Class. All general meetings will be held in Ireland.

The Chairman of a general meeting of a Fund or Class or any Shareholder of a Fund or Class present in person or by proxy at a meeting of a Fund or Class may demand a poll. The Chairman of a general meeting of the Company or at least two Members present in person or by proxy or any Shareholder or Shareholders present in person or by proxy representing at least one tenth of the Shares in issue having the right to vote at such meeting may demand a poll.

On a poll every Shareholder present in person or by proxy shall be entitled to one vote in respect of each Share held by him and every holder of non-participating shares shall be entitled to one vote in respect of all non-participating shares held by him. A Shareholder entitled to more than one vote need not cast all his votes or cast all the votes he uses in the same way.

To be passed, ordinary resolutions of the Company or of the Shareholders of a particular Fund or Class will require a simple majority of the votes cast by the Shareholders voting in person or by proxy at the meeting at which the resolution is proposed. Special resolutions of the Company or of the Shareholders of a particular Fund or Class will require a majority of not less than 75% of the Shareholders present in person or by proxy and voting in a general meeting in order to pass a special resolution including a resolution to amend the Articles.

### **Principal Activities and Future Developments**

The Company is established as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). It is structured as a Company consisting of different Funds each comprising one or more Share Classes. The assets of each Fund are invested separately on behalf of each Fund in accordance with the investment objective and policies of each Fund. At 31 December 2019, the Company had six Funds in operation. The names of the Funds and their investment objectives are stated in the 'Background to the Company' on pages 3 to 7.

The results for the financial year ended 31 December 2019 are contained in the Statement of Comprehensive Income on pages 40 to 41.

The Investment Manager's Report contains a review of the factors which contributed to the performance for the year. The directors do not anticipate any changes in the structure or investment objective of each Fund for the foreseeable future.

#### **Risk Management Objectives and Policies**

The information required in relation to the use by the Company of financial instruments and the financial risk management objectives and policies as well as the exposure of the Company to market (including price, interest rate and currency risks), liquidity, credit and other operational risks are outlined in Note 3 'Financial Risk Management'.

#### Signi icant Events during the Year

The following addendum documents were noted by the Central Bank during the year.

The Second Addendum dated 11 February 2019 and the Third Addendum dated 26 November 2019 and as supplemented by Supplement 1 dated 13 July 2017 in relation to FAB Balanced Allocation Fund, Supplement 2 dated 13 July 2017 in relation to FAB Conservative Allocation Fund, Supplement 3 dated 13 July 2017 in relation to FAB Growth Allocation Fund, Supplement 4 dated 13 July 2017 in relation to FAB MENA Bond Fund, Supplement 5 dated 1 October 2019 in relation to FAB MENA Dividend Leader Fund and Supplement 6 dated 1 October 2019 in relation to FAB Shariah MENA Dividend Leader Fund.

There have been no other significant events during the year which require disclosure in these financial statements.

#### Significant Events since the Year End

The following documents were noted by the Central Bank after the financial year end of the accounts.

### Significant Events since the Year End (continued)

The Fourth Addendum, dated 2 January 2020, to the Prospectus of the Company, dated 13 July 2017, as amended by the First Addendum dated 30 November 2018.

The COVID-19 epidemic is believed to have originated in Wuhan, Hubei, China. While containment efforts were made to slow the spread of the epidemic the outbreak has now spread globally and has led to the World Health Organisation declaring the COVID-19 outbreak a pandemic on 11 March 2020.

The Board is aware that global financial markets have been monitoring and reacting to the outbreak. All markets have incurred increased volatility and uncertainty since the onset of the pandemic.

The Board has also noted the operational risks that are posed to the Fund and its service providers due to global and local movement restrictions that have been enacted by various governments. COVID-19 pandemic is an unprecedented event and the eventual impact on the global economy and markets will largely depend on the scale and duration of the outbreak. The Board will continue to monitor this situation. The ultimate extent of the effect of this on the entity is not possible to estimate at this time.

A new fund, FAB MENA Plus Fixed Maturity Portfolio 2025 Series 1 fund was approved by the Board of Directors on 19 March 2020 to be launched during the year 2020.

There have been no other significant events since the year end which require disclosure in these financial statements.

#### Dividends

Dividends were declared during the year in respect of the USD Distribution Share Class, USD (Dhabi) Distribution Share Class, the AED Distribution (Unhedged) Share Class and the EUR Distributing Class of the FAB MENA Dividend Leader Fund. Dividends were declared during the year in respect of the USD Distribution Share Class, the AED Distribution (Unhedged) Share Class of the FAB MENA Bond Fund respectively. Dividends were declared during the year in respect of the AED Distribution (Unhedged) Share Class and the EUR Distribution Share Class and the AED Distribution Share Class of the FAB MENA Bond Fund respectively. Dividends were declared during the year in respect of the USD Distribution Share Class and the AED Distribution (Unhedged) Share Class of the FAB Shariah MENA Dividend Leader Fund respectively. #### **Directors and Secretary**

The directors who held office during the year under review were:

Gerald Brady (Irish) Yvonne Connolly (Irish) Omeir Jilani (Canadian)

Carne Global Financial Services Limited acts as Secretary for the Company as well as providing designated persons services.

#### **Directors' Interests in Shares**

As at 31 December 2019, the Directors did not have any interest in shares in the Company (31 December 2018: Nil).

#### **Transactions Involving Directors**

Details of all related party transactions are contained in Note 19 to the financial statements.

#### **Independent Auditors**

In accordance with the Companies Act 2014, KPMG, Chartered Accountants and Statutory Audit Firm were appointed and will continue in office.

#### **Transactions with Connected Persons**

Any transaction carried out with a UCITS by a management company or depositary to the UCITS, the delegates or sub-delegates of management company or depositary, and any associated or group of such a management company, depositary, delegate or sub-delegate ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the Shareholders.

#### Transactions with Connected Persons (continued)

The directors are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and are satisfied that transactions with connected parties entered into during the year complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

#### **Relevant Audit Information**

The directors believe that they have taken all steps necessary to make themselves aware of any relevant audit information and have established that the Company's statutory auditors are aware of that information. In so far as they are aware, there is no relevant audit information of which the Company's statutory auditors are unaware.

#### Audit committee statement

As at the date of these financial statements, the Company is operating within the threshold limits as set out under Section 167(1) of the Companies Act 2014 and as such the Company does not meet the requirements to establish an audit committee for the current financial year ended 31 December 2019.

### **Political Donations**

The Company made no political donations during the financial year ended 31 December 2019 (31 December 2018: None).

### **Directors' Compliance Statement**

The directors, in accordance with Section 225(2) of the Companies Act 2014, acknowledge that they are responsible for securing the Company's compliance with certain obligations specified in that section arising from the Companies Act 2014, where applicable, the Market Abuse (Directive 2003/6/EC) Regulations 2015, the transparency (Directive 2004/109/EC) Regulations 2007 and tax laws ('relevant obligations'). The directors confirm that:

- A compliance policy statement has been drawn up setting out the Company's policies with regards to such compliance;
- Appropriate arrangements and structures that, in their opinion, are designed to secure material compliance with the Company's relevant obligations, have been put in place; and
- A review has been conducted, during the financial year, of the arrangements and structures that have been put in place to secure the Company's compliance with its relevant obligations.

## Depositary Report to Shareholders for the year to 31 December 2019

We, Northern Trust Fiduciary Services (Ireland) Limited, appointed Depositary to OneShare plc ("the Company") provide this report solely in favour of the shareholders of the Company for the year to 31 December 2019 ('the Annual Accounting Period").

This report is provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (SI No 352 of 2011) as amended which implemented Directive 2009/65/ EU into Irish Law ("the Regulations"). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the Regulations, we have enquired into the conduct of the Company for the Annual Accounting Period and we hereby report thereon to the shareholders of the Company as follows;

We are of the opinion that the Company has been managed during the Annual Accounting Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documents and by the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional document and the Regulations.

For and on behalf of

Northern Trust Fiduciary Services (Ireland) Limited

20 April 2020

## Independent auditor's report to the members of OneShare plc

## **Report on the audit of the financial statements**

## Opinion

We have audited the financial statements of OneShare plc ('the Company') for the year ended 31 December 2019, which comprise the Statement of Comprehensive Income, Statement of Financial Position, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, Statement of Cash Flows, Schedule of Investments and related notes, including the summary of significant accounting policies set out in note 2. The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

## In our opinion, the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Company as at 31 December 2019 and of its increase in net assets attributable to holders of redeemable participating shares for the year then ended;
- have been properly prepared in accordance with IFRS as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

## **Basis of Opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## We have nothing to report on going concern

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least twelve months from the date of approval of the financial statements. We have nothing to report in these respects.

## Other information

The directors are responsible for the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in the directors' report, the Investment Manager's report, Depositary Report, the Schedule of Portfolio Changes, Appendix 1 – Remuneration Policy (unaudited) and Appendix 2 – Securities Financing Translation Regulations (unaudited). The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work we have not identified material misstatements in the other information.

Based solely on our work on the other information, we report that:

- we have not identified material misstatements in the directors' report;
- in our opinion, the information given in the directors' report is consistent with the financial statements;
- in our opinion, the directors' report has been prepared in accordance with the Companies Act 2014.

## Independent auditor's report to the members of OneShare plc (continued)

## Opinions on other matters prescribed by the Companies Act 2014

We have obtained all the information and explanations which we consider necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

#### Matters on which we are required to report by exception

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions required by Sections 305 to 312 of the Act are not made. We have nothing to report in this regard.

#### Respective responsibilities and restrictions on use

#### Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 29, the directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

## Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at <u>https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description\_of\_auditors\_responsibilities\_for\_audit.pdf</u>.

## Independent auditor's report to the members of OneShare plc (continued)

## The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Garrett O'Neill for and on behalf of KPMG Chartered Accountants, Statutory Audit Firm 1 Harbourmaster Place IFSC Dublin 1 DO1 F6F5 Ireland

\* The NBAD WEC Africa Asia Frontier Markets Fund closed on 22 September 2016.

#### Notes to the Financial Statements

#### For the year ended 31 December 2019

#### 1. Basis of preparation

#### a) Statement of Compliance

The financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRSs") and International Financial Reporting Interpretations Committee ("IFRIC") interpretations as adopted by the European Union ("EU") and those parts of the Companies Act 2014 applicable to companies reporting under IFRS and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019. The financial statements f2.or the Company are prepared on a going-concern basis.

#### b) Basis of Measurement

The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss ("FVTPL"). The financial statements of OneShare Plc as at and for the year ended 31 December 2019 were prepared in accordance with International Financial Reporting Standards ("IFRS").

#### c) Valuation Point

All Funds are valued daily, four days a week from Monday to Thursday at close of business. The year end date of the Company is 31 December 2019.

#### d) Functional and Presentation Currency

Items included in OneShare Plc's ("the Company's") financial statements for each Fund are measured using the currency of the primary economic environment in which it operates (the "functional currency"). The functional currency for all Funds is the US Dollar ("USD"), which reflects the fact that the majority of the Redeemable Participating Shares are subscribed and redeemed in USD. Also, a large number of the investments within the Funds are denominated in USD since the majority of the investors at a Company level invest in the USD share class.

#### e) Accounting Estimates and Judgements

The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and any future period affected.

#### f) Elimination of Cross Investments

Certain Funds within the Company hold investments in other Funds of the Company. For the purposes of determining the total net assets and liabilities of the Company these cross holdings are eliminated so that the total amounts only reflect external assets and liabilities of the Company as a whole. This elimination for the purpose of ascertaining the total Company results and financial position does not have any effect on the results and financial position of the individual Funds. Details of all Cross Investments at the year end are included in Note 19 to the financial statements.

## g) Standards issued but not yet effective

A number of new standards are effective for annual periods beginning after 1 January 2019 and earlier application of permitted; however, the Fund has not early adopted the new or amended standards in preparing these financial statements.

For the year ended 31 December 2019

#### 1. Basis of preparation (continued)

#### g) Standards issued but not yet effective (continued)

The following amended standards and interpretations are not expected to have a significant impact on the Fund's financial statements.

- Amendments to References to Conceptual Framework in IFRS Standards.
- Definition of a Business (Amendments to IFRS 3).
- Definition of Material (Amendments to IAS 1 and IAS 8).
- IFRS 17 Insurance Contracts
- Interest Rate Benchmark Reform (Amendments to IFRS 9, IAS 39 and IFRS 7).

#### h) Adoption of applicable new standards and interpretations

The following new and revised Standards and Interpretations have been adopted in the current year. Their adoption has not had any significant impact on the amounts reported in these financial statements.

#### IFRIC 23 - Uncertainty over Income Tax Treatments

IFRIC 23 'Uncertainty over Income Tax Treatments' ("IFRIC 23") is effective for annual reporting periods beginning on or after 1 January 2019 and aims to clarify how to reflect uncertainty in the recognition and measurement of income taxes under IAS 12. An assessment has been carried out and the new standard does not have a significant impact on the Company's financial position, performance or disclosures in its financial statements.

## 2. Significant Accounting Policies

#### a) Financial assets and financial liabilities

#### i. Recognition and initial measurement

The Company initially recognises financial assets and financial liabilities at fair value through profit or loss ("FVTPL"). on the trade date, which is the date on which the Company becomes a party to the contractual provisions of the instrument. Other financial assets and financial liabilities are recognised on the date on which they are originated.

A financial asset or financial liability is measured initially at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue.

#### ii. Classification and subsequent measurement

On initial recognition, the Company classifies financial assets as measured at amortised cost or at FVTPL.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI").

All other financial assets of the Company are measured at FVTPL.

## b) Classification of financial assets and financial liabilities

The Company designated financial assets and financial liabilities into the following categories under IFRS 9:

## For the year ended 31 December 2019

## 2. Significant Accounting Policies (continued)

## b) Classification of financial assets and financial liabilities (continued)

Mandatorily at FVTPL:

- Investments in Investment Funds;
- Investments in Transferable Securities; and
- Investments in Financial Derivative Instruments.

Financial assets/liabilities at amortised cost:

- Cash and Cash Equivalents;
- Debtors;
- Creditors; and
- Net Assets Attributable to Holders of Redeemable Participating Shares.

#### **Business model assessment**

In making an assessment of the objective of the business model in which a financial asset is held, the Company considers all of the relevant information about how the business is managed, including:

- documented investment strategy and the execution of this strategy in practice. This includes whether the
  investment strategy focuses on earning contractual interest income, maintaining a particular interest rate
  profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash
  outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how the investment manager is compensated: e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

The Company has determined that it has two business models.

- Held-to-collect business model: this includes cash and cash equivalents and debtors. These financial assets are held to collect contractual cash flow.
- Other business model: this includes debt securities, equity investments, investments in unlisted open-ended investment funds, unlisted private equities and derivatives. These financial assets are managed and their performance is evaluated, on a fair value basis, with frequent sales taking place.

## Assessment whether contractual cash flows are SPPI

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

For the year ended 31 December 2019

## 2. Significant Accounting Policies (continued)

## b) Classification of financial assets and financial liabilities (continued)

In assessing whether the contractual cash flows are SPPI, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- leverage features;
- prepayment and extension features;
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features); and
- features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

## Reclassifications

Financial assets are not reclassified subsequent to their initial recognition unless the Company were to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

## Subsequent measurement of financial assets

#### Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income and expense and foreign exchange gains and losses, are recognised in profit or loss in 'operating income on financial assets and liabilities at FVTPL in the statement of comprehensive income.

Debt securities, equity investments, investments in unlisted open- ended investment funds, unlisted private equities and derivative financial instruments are included in this category.

## Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. Interest income is recognised in 'interest income calculated using the effective interest method', foreign exchange gains and losses and impairment is recognised in the statement of comprehensive income. Any gain or loss on derecognition is also recognised in profit or loss.

Cash and cash equivalent is included in this category.

## **Financial liabilities**

Financial liabilities are classified as measured at amortised cost or FVTPL.

A financial liability is classified s at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gain and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss

Financial liabilities at FVTPL:

- Held for trading: securities sold short and derivative financial instruments

## For the year ended 31 December 2019

## 2. Significant Accounting Policies(continued)

## b) Classification of financial assets and financial liabilities (continued)

Financial liabilities at amortised cost:

- Creditors.
- Net Assets Attributable to Holders of Redeemable Participating Shares.

## i. Amortised cost measurement

The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

Financial liabilities, arising from the Redeemable Participating Shares issued by the Company, are carried at the redemption amount representing the Investors' right to a residual interest in the Company's assets.

## ii. Fair Value Measurement Principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair values of financial assets and financial liabilities traded in active markets (such as transferable securities, investment funds, and financial derivative instruments traded publicly) are based on quoted m id-market prices at the close of trading on the reporting date.

If a quoted market price is not available on a recognised stock exchange or from a broker/dealer for non- exchangetraded financial instruments, the fair value of the instrument is estimated using valuation techniques, including use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

The fair value of financial derivative instruments, that are not exchange-traded, is estimated at the amount that the Company would receive or pay to terminate the contract at the reporting date, taking into account current market conditions (volatility, appropriate yield curve) and the current creditworthiness of the counterparties.

## Forwards

Forwards may be used for efficient portfolio management purposes as follows: (a) to protect the strength of the base currency of a Fund; (b) to mitigate the currency risk between the base currency of a Fund and the currency in which Shares in a Class of a Fund are designated where that designated currency is different to the base currency of a Fund; (c) to mitigate the currency risk between the designated currency of a particular Class and the currency of denomination of the assets of a Fund attributable to that Class where the currency of denomination is different to the designated currency of the Class; and/or (d) to gain exposure to markets which are not easily accessible whereby cost effective exposure via forwards is offered to the interest rates, currencies and/or the prices of underlying assets in which a Fund may invest directly. Forward contracts on all Funds are valued using close of business exchange rates.

## **Structured Notes**

Structured notes are financial instruments issued by banks with varying terms, payouts and risk profiles tracking the performance of an underlying asset which can be equity, index, commodity, currency or a basket of securities. They are usually not standardised with the terms, payout and risk profile of each instrument being tailored and determined at the time of issue by the issuing bank. These investments are theoretically priced based on the underlying security price at the currency exchange rate of the valuation point with any changes in their values recognised in the Statement of Comprehensive Income.

For the year ended 31 December 2019

- 2. Significant Accounting Policies (continued)
- b) Classification of financial assets and financial liabilities (continued)

#### ii. Fair Value Measurement Principles (continued)

#### **Investment Funds**

Investments in investment funds are valued at the latest available unaudited net asset value per share as published by the relevant investment fund or, if listed or traded on a recognised exchange, will be valued at the official closing price in the event that the valuation point of the Fund is close of business in the relevant market on a dealing day and otherwise at last traded prices. Where such values are not considered fair, the directors may, with the approval of the Depositary, adjust the value of any investment if, having regard to its currency, marketability, applicable interest rates, anticipated rates of such dividend, maturity, liquidity and any other relevant considerations, they consider that such adjustment is required to reflect the fair value thereof, and is in accordance with IFRS.

#### iii. Impairment

The Company recognises loss allowances for expected credit losses ("ECLs") on financial assets measured at amortised cost.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following which are measured at 12 month ECLs.

- financial assets that are determined to have low credit risk at the reporting date; and
- other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

The Company considers a financial asset to have low credit risk when the credit rating of the counterparty is equivalent to the globally understood definition of 'investment grade'. The Company considers this to be B- or above as rated by Standard & Poor's or an equivalent rating by Moody's or Fitch or as determined by the Investment Manager.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

## Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

#### For the year ended 31 December 2019

## 2. Significant Accounting Policies (continued)

#### b) Classification of financial assets and financial liabilities (continued)

#### iii. Impairment (continued)

#### Measurement of ECLs (continued)

ECLs are discounted at the effective interest rate of the financial asset.

#### Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due; or
- it is probable that the borrower will enter bankruptcy or other financial reorganisation.

#### Presentation of allowance for ECLs in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

#### Write-off

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

#### iv. Derecognition

The Company derecognises financial assets when the contractual rights to the cash flows from the asset expire, or it transfers the right to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial assets are transferred or in which the Company neither transfers nor retains substantially all the risks and rewards of ownership and does not retain control of the financial assets.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset that is derecognised) and the consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss. Any interest in such transferred financial assets that is created or retained by the Company is recognised as a separate asset or liability.

The Company derecognises a financial liability when its contractual obligations are discharged, cancelled or expire.

#### v. Offsetting Financial Instruments

#### Offsetting Financial Instrument

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

## c) Dividend Income

Dividends, gross of withholding taxes, where applicable, are included as income when the security is declared to be exdividend.

## For the year ended 31 December 2019

## 2. Significant Accounting Policies (continued)

## c) Dividend Income (continued)

#### Purification of Dividends

By way of its nature the FAB Shariah MENA Dividend Leader Fund is required to comply with the dividend purification policy. Dividend purification is the cleansing of the dividends, the source of which is not acceptable from a Shariah point of view, by way of donation to a charity under the guidance and supervision of the Shariah Advisor.

The Investment Manager will purify the dividend based on the dividend purification ratio (the "DP ratio") calculated by S&P, the Index provider of S&P Pan Arab Shariah LMC Index (NET TR, in USD). The DP ratio is calculated on a monthly basis. FAB have elected the UAE Red Crescent as their charity of choice.

The DP ratio is calculated as Non-Permissible Revenue/Total Revenue. Non-Permissible Revenue, in this context, includes all forms of revenue or income that are considered non-permissible from a Shariah perspective (e.g. alcohol sales, gambling revenue) and includes any income generated from interest.

## d) Interest Income

Interest income and expense presented in the statement of comprehensive income comprise interest on financial assets and financial liabilities measured at amortised cost calculated on an effective interest basis.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

## e) Fees

Pursuant to the Shariah Consulting Agreement, the FAB Shariah MENA Dividend Leader Fund shall pay to the Shariah Advisor an annual fee for services performed; these fees are charged to the Statement of Comprehensive Income on an accruals basis.

For all Funds, the operational fees and expenses of the Company attributable to each Fund will be borne by the Company and charged to the Statement of Comprehensive Income on an accruals basis.

## f) Redeemable Participating Shares

Redeemable Participating Shares are redeemable at the Shareholder's option and are classified as financial liabilities. Any distributions on these participating shares are recognised in the Statement of Comprehensive Income as finance costs.

## g) Net Gains/Losses on Financial Assets at Fair Value Through Profit or Loss

Net gains or losses on financial assets at fair value through profit or loss include all realised and unrealised fair value changes and foreign exchange differences, but exclude interest and dividend income. These are recorded in the Statement of Comprehensive Income - Net (losses)/gains on financial assets and financial liabilities at fair value through profit or loss.

## For the year ended 31 December 2019

## 2. Significant Accounting Policies (continued)

## h) Cash and Cash Equivalents

Cash and cash equivalents comprises cash, deposits and short-term highly liquid investments with original maturities of three months or less which are subject to an insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Bank overdrafts that are repayable on demand and form an integral part of the Company's cash management are included as a component of cash and cash equivalents for the Statement of Cash Flows. They are reported as current liabilities in the Statement of Financial Position.

## i) Foreign Exchange Translation

Assets and liabilities denominated in foreign currencies, other than the functional currency of each Fund, are translated at the rate of exchange ruling at the reporting date. Transactions in foreign currencies are translated into the functional currency at the exchange rate ruling at the date of the transaction. Gains and losses on foreign exchange transactions are recognised in the Statement of Comprehensive Income in determining the result for the year. Foreign exchange gains and losses on financial assets and financial liabilities at fair value through profit or loss are recognised together with other changes in the fair value.

## j) Transaction Costs

Transaction costs are costs incurred to acquire or dispose of financial assets or financial liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs are expensed in the Statement of Comprehensive Income.

## k) Tax

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

The Company will not be liable for tax in respect of its income and gains, other than on the occurrence of a chargeable event. A chargeable event includes any distribution or any redemption or transfer of shares. See Note 23.

However, some dividend and interest income received by the Funds are subject to withholding tax imposed in certain countries of origin. Income that is subject to such tax is recognised gross of the taxes and the corresponding withholding tax is recognised as tax expense.

## l) Distributions

Distributions to Holders of Redeemable Participating Shares are recognised in the Statement of Comprehensive Income as finance costs when they are authorised and no longer at the discretion of the relevant Fund. As noted in the background to the Company, distributions will be made on a semi-annual basis in relation to distributing Share Classes at the discretion of the directors.

## m) Equalisation

An equalisation account is maintained for the distributing Classes of MENA Dividend Leader Fund, MENA Bond Fund and MENA Shariah Dividend Leader Fund so that the amounts distributed are the same for all Shares of the same Class notwithstanding different dates of issue. A sum equal to that part of the issued price of the Share which reflects income (if any) accrued but undistributed up to the date of issue less any income expenses incurred during that period is deemed to be an equalisation payment and treated as repaid to Shareholders with the first dividend or accumulation to which the Shareholder is entitled. Details of Equalisation applied can be found in Note 22.

## For the year ended 31 December 2019

## 2. Significant Accounting Policies (continued)

## n) Structured Entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity often has some or all of the following features or attributes; (a) restricted activities, (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches). The details of structured entities are disclosed in Note 20 of the financial statements.

## 3. Financial Risk Management

The Company's investment activities expose it to the various types of risk which are associated with the financial instruments and markets in which it invests. The following information is not intended to be a comprehensive summary of all risks and investors should refer to the Prospectus and Supplements for a more detailed discussion of the risks in investing in the Company.

As defined by IFRS 7 "Financial Instruments: Disclosures", risk arising on financial instruments can be separated into the following components: market risk, credit risk, liquidity risk and operational risk. Each type of risk is discussed below and both qualitative and quantitative analyses are provided, where relevant, to give the reader an understanding of risk management methods used by the Investment Manager and reviewed by the directors of the Company.

The Company's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimise any discrepancy between the performance of the Funds and the performance of its benchmark where it is tracking the index. FAB MENA Dividend Leader Fund, FAB MENA Bond Fund and FAB Shariah MENA Dividend Leader Fund utilise/utilised certain benchmarks for comparison purposes while the three allocation Funds, FAB Conservative Allocation, FAB Growth Allocation and FAB Balanced Allocation Funds do not utilise any benchmarks for performance comparison purposes.

The nature and extent of the financial instruments outstanding at the reporting date and the risk management policies employed by the Company are discussed below.

## a) General

The risk monitoring process is the responsibility of the directors who have delegated this responsibility to the Investment Manager.

The Investment Manager is responsible for the operation of the risk management process, including the measurement of risk within each Fund's portfolio at any given time.

The risk management process is supported by the Investment Manager's internal systems which are designed to assess the Fund's risk on a daily basis. A dedicated risk management team within the Investment Manager's organisation is responsible for the day to day risk monitoring process and will receive reports from relevant service providers to facilitate this monitoring process.

The Investment Manager reports to the Board of Directors on a quarterly basis in relation to risk monitoring. Matters which require urgent attention are escalated immediately. The directors rely on the Investment Manager to keep them informed of any material event.

## For the year ended 31 December 2019

#### 3. Financial Risk Management (continued)

#### b) Market Risk

Market risk is the risk that the future fair value of a financial instrument will fluctuate because of changes in the factors that affect the overall performance of financial markets. Some of the risks are systematic and others are non-market related. The Investment Manager manages market risk primarily through the diversification of each portfolio and by regularly reviewing and evaluating the investments both on a macro-economic and micro-economic basis. The Investment Manager also monitors concentration limits within each portfolio against the UCITS concentration rules which apply to each Fund.

Details of the nature of each Fund's investment portfolio at the reporting date are disclosed in the Schedule of Investments.

Market risk comprises the three following types of risk:

- other price risk,
- currency risk and
- interest risk

#### (i) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The maximum risk resulting from financial instruments is determined by the fair value of the financial instruments except in the case of derivative instruments, when the maximum risk can be substantially higher or in some cases unlimited.

Each Fund's investments are susceptible to market price fluctuations arising from uncertainties about the future performance of each specific security held by the Fund, future market conditions in general and future economic and political events.

# FAB Balanced Allocation Fund, FAB Conservative Allocation Fund and FAB Growth Allocation Fund (the "Funds")

These Funds invest in other investment funds and are susceptible to market price risk arising from uncertainties about future values of those investment funds. The Investment Manager makes investment decisions after an extensive assessment of the underlying fund, its strategy and the overall quality of the underlying fund's manager. Also, investment decisions are made having regarded for defined restrictions stipulated in the Supplement of each Fund.

The capital return of each Fund is based on the return on its underlying investment funds and there can be no assurance that the investment managers of the underlying investment funds will achieve capital appreciation.

The Funds' policy requires the Investment Manager to complete a full reassessment of each of the investment funds on a quarterly basis and track the performance of each of the Funds on a weekly basis.

For the year ended 31 December 2019

## 3. Financial Risk Management (continued)

#### b) Market Risk (Continued)

## (i) Other price risk (continued)

# FAB Balanced Allocation Fund, FAB Conservative Allocation Fund and FAB Growth Allocation Fund (the "Funds") (continued)

## **Sensitivity Analysis**

If the price of the underlying investment funds held by each Fund had increased by 5% at 31 December 2019 (31 December 2018: 5%), with all other variables held constant, this would have increased the Net Assets Attributable to Holders of Redeemable Participating Shares of each Fund by the following amounts:

Fund	Benchmark	% Movement 2019	% Movement 2018	Effect on Net Assets attributable to Holders of Redeemable Participating Shares at 31 December 2019 USD	Effect on Net Assets attributable to Holders of Redeemable Participating Shares at 31 December 2018 USD
FAB Balanced Allocation Fund	N/A	5%	5%	952,349	210,441
FAB Conservative Allocation Fund	N/A	5%	5%	103,852	114,934
FAB Growth Allocation Fund	N/A	5%	5%	388,806	195,806

Conversely, had it decreased by 5%, this would have decreased the Net Assets Attributable to Holders of Redeemable Participating Shares of each Fund by an equal amount with all other variables remaining constant.

# FAB MENA Dividend Leader Fund, FAB MENA Bond Fund and the FAB Shariah MENA Dividend Leader (the "Funds")

These Funds are exposed to equity securities price risk, debt securities price risk and derivative price risk. This arises from investments held by each Fund for which prices in the future are uncertain. The exposure to price risk from investment in debt securities is that price movements are derived principally from movements in market interest rates and issuer credit-worthiness.

The Funds' policy is to manage price risk through diversification and selection of securities and other financial instruments within specified limits as defined in each Fund's Supplement.

## **Sensitivity Analysis**

FAB MENA Dividend Leader Fund does not attempt to track any particular benchmark but has certain benchmarks which are used for performance measurement purposes as detailed below and in some cases for the determination of performance fee calculations.

For the year ended 31 December 2019

## 3. Financial Risk Management (continued)

#### b) Market Risk (Continued)

## (i) Other price risk (continued)

# FAB MENA Dividend Leader Fund, FAB MENA Bond Fund and the FAB Shariah MENA Dividend Leader (the "Funds") (continued)

#### Sensitivity Analysis (Continued)

The sensitivity analysis for the Funds below, assumes a change in the return of the performance benchmark while holding all other variables constant will yield the same return within the Funds.

Fund	<u>Benchmark</u>	% Movement 2019	% Movement 2018	Effect on Net Assets attributable to Holders of Redeemable Participating Shares at 31 December 2019 USD	Effect on Net Assets attributable to Holders of Redeemable Participating Shares at 31 December 2018 USD
FAB MENA Dividend Leader Fund	S&P Pan Arab Composite LM Cap Index	- / -	5%	1,509,618	1,561,114
FAB Shariah MENA Dividend Leader Fund	S&P Pan Arab Sharia'a Large Cap Price Index	- / -	5%	198,431	298,269

With respect to the FAB MENA Bond Fund, it is expected that a relative change in interest rates with all variables constant can have a significant effect on the price of a bond. Therefore, the effect of rate changes on the value of a debt instrument held by that Fund will be dealt with under the interest rate risk sensitivity analysis as appropriate.

#### (ii) Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Funds may have an exposure to currency risk as a result of the monetary and non-monetary assets and liabilities that they hold which may be denominated in currencies other than their functional currency. Also, the fact that some Classes of Shares within a Fund are designated in a currency other than the functional currency of the Fund exposes it to the risk of foreign exchange fluctuations.

Currency hedging may be undertaken at the Fund level to reduce a Fund's exposure to the fluctuations of the currencies in which the Fund's assets and liabilities may be designated as against the functional currency. Similarly, currency hedging may be undertaken at Class Level to mitigate any such risks.

The details of these contracts are disclosed in the Funds' Schedule of Investments, where applicable.

In accordance with Company policy, the Investment Manager monitors each Fund's currency position on a daily basis. The directors of the Company rely on the Investment Manager to keep them informed of any material event. There were no material changes to the Company's policies and processes for managing currency risk and the methods used to measure risk during the year.

For the year ended 31 December 2019

## 3. Financial Risk Management (continued)

#### b) Market Risk (Continued)

## (ii) Currency Risk (continued)

The tables presented on the following pages document each Fund's exposure to foreign currency fluctuations as at 31 December 2019 and 31 December 2018 where applicable including the effects of foreign exchange derivatives. All amounts are stated in the functional currency of the relevant Fund.

#### Sensitivity Analysis

The table below summarises the sensitivity of each Fund's monetary and non-monetary assets and liabilities denominated in other currencies to changes in foreign exchange movements at the year end. The analysis is based on the assumptions that the relevant foreign exchange rate increased/decreased by the percentage disclosed in the table below, with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the foreign exchange rates.

		% Movement	% Movement	Effect on Net Assets attributable to Holders of Redeemable Participating Shares at 31 December	Effect on Net Assets attributable to Holders of Redeemable Participating Shares at 31 December
Fund	Currency	2019	2018	2019	2018

FAB Growth Allocation Fund	USD	3%	3%	2,407	0
FAB Shariah MENA Dividend Leader Fund	USD	3%	3%	119,149	180,008

#### (iii) Interest Rate Risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and financial liabilities and the future cash flow.

All of the Funds with the exception of the FAB MENA Bond Fund do not have interest bearing assets apart from cash and cash equivalents which expose them to cash flow interest rate risk. The FAB MENA Bond Fund holds fixed and floating interest securities that exposes it to fair value interest rate risk.

The risk is managed by the Investment Manager maintaining an appropriate mix between fixed and floating interest securities and by the use of interest rate and asset swap contracts.

### For the year ended 31 December 2019

3. Financial Risk Management (continued)

### b) Market Risk (Continued)

### (iii) Interest Rate Risk (continued)

In accordance with Company policy, the Investment Manager monitors each of the Fund's overall interest sensitivity on a daily basis. The directors rely on the Investment Manager to keep them informed of any material event. There were no material changes to the Company's policies and processes for managing interest rate risk and the methods used to measure risk during the year.

The following tables summarise FAB MENA Bond Fund's exposure to interest rate risk at 31 December 2019 and 31 December 2018 where applicable. It includes the Fund's assets and trading liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates. All other Funds are not exposed to interest rate risk except on cash balances held.

#### 3. Financial Risk Management (continued)

#### b) Market Risk (Continued)

#### (iii) Interest Rate Risk (continued)

#### Sensitivity Analysis

With the exception of the FAB MENA Bond Fund, which holds corporate bonds, the majority of the financial assets and financial liabilities held by all other Funds are non-interest bearing. As a result, the Funds are not subject to significant amounts of interest rate risk due to fluctuations in the prevailing levels of market interest rates and any excess cash and cash equivalents are invested at short-term market interest rates.

No sensitivity analysis has therefore been carried out for all Funds except for the FAB MENA Bond Fund as follows:

As at 31 December 2019, if interest rates had lowered by 1% (31 December 2018: 1%) for a full year, with all other variables remaining constant, the decrease in Net Assets Attributable to Holders of Redeemable Participating Shares for the year would amount to approximately USD 1,661,265 (31 December 2018: USD 1,743,729). If interest rates had risen by 1% (31 December 2018: 1%), the increase in Net Assets Attributable to Holders of Redeemable Participating Shares would amount to approximately USD 1,661,265 (31 December 2018: USD 1,743,729) respectively.

There are external factors other than interest rate risk that may affect the price of a bond such as macro-economic risk. This would include the overall financial health of companies/institutions in the case of corporate bonds and the overall financial health of the relevant public finances in the case of government bonds.

The sensitivity analysis for interest rate movement may be unrepresentative, because the year end exposure may not reflect exposure during the year. The weighted average maturity of the Fund may change throughout the year, as a result, the sensitivity that the investment portfolio had to movements in interest rates on 31 December 2019 could significantly differ from the sensitivity at other points in the year.

#### c) Credit Risk

The Funds and the Company are exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party, by failing to discharge an obligation.

The main direct concentration of credit risk to which the Funds are exposed arises from each Fund's investments in debt securities. The Funds are also exposed to counterparty credit risk on trading derivative products, cash and cash equivalents, amounts due from brokers and other receivable balances.

The Company will be exposed to a credit risk on parties with whom it trades in transferable securities and will also bear the risk of settlement default. The Company minimises concentration of credit risk by undertaking transactions with a large number of customers and counterparties on recognised and reputable exchanges.

The Company on behalf of the Funds may enter into derivative transactions in over-the-counter markets, which will expose the Funds to the credit risk of its counterparties and their ability to satisfy the terms of such contracts. For example, the Company on behalf of the Funds may enter into repurchase agreements, forward contracts, options and swap arrangements or other derivative techniques, each of which exposes the Funds and the Company to the risk that the counterparty may default on its obligations to perform under the relevant contract.

In the event of the bankruptcy or insolvency of a counterparty, a Fund could experience delays in liquidating the position and significant losses, including declines in the value of its investment during the period in which the Company seeks to enforce its rights, inability to realise any gains on its investment during such period and fees and expenses incurred in enforcing its rights.

There is also a possibility that the above agreements and derivative techniques are terminated due, for instance, to bankruptcy, supervening illegality or change in the tax or accounting laws relative to those at the time the agreement was originated. In such circumstances, investors may be unable to recover any losses incurred. Derivative contracts such as swaps entered into by the Company on behalf of a Fund on the advice of the Investment Manager involve credit risk, which could result in a loss to the relevant Fund.

#### For the year ended 31 December 2019

#### 3. Financial Risk Management (continued)

#### c) Credit Risk (Continued)

There can be no assurance that issuers of securities or other instruments in which the Funds invest will not be subject to credit difficulties leading to the loss of some or all of the sums invested in such securities or instruments or payments due on such securities or instruments. Funds will also be exposed to a credit risk in relation to the counterparties with whom they transact or place margin or collateral in respect of transactions in financial derivative instruments and may bear the risk of counterparty default.

For the FAB MENA Bond Fund, its investment objective is achieved primarily through investment in a broadly diversified range of money market instruments and/or debt securities (including inter alia notes (with a maturity from the date of issue of longer than one year but less than ten years), structured notes, participatory notes, bills and bonds) issued by governments, institutions and corporations in Middle East and North Africa (MENA) countries, Turkey and India and/or corporations which derive a significant proportion of their revenues or profits from, or have a significant portion of their assets in MENA countries, Turkey and India.

The Investment Manager mitigates this risk by selecting money market instruments and debt securities based on fundamental research reports and assessment of other technical parameters such as liquidity, credit rating and relative value analysis. Such debt securities, which may have fixed or floating rates of interest, may be rated or unrated and will be listed on or dealt in recognised exchanges worldwide. Where rated, the debt securities will have a credit rating of B-or above as rated by Standard & Poor's or an equivalent rating by Moody's or Fitch or as determined by the Investment Manager.

As at 31 December 2019 and 31 December 2018, the total amount of financial assets exposed to credit risk approximates to their carrying value in the Statement of Financial Position.

At 31 December 2019 and 31 December 2018, the FAB MENA Bond Fund held the following types of financial instruments within its investment portfolio:

	<b>31 December 2019</b>	31 December 2018
Government Bonds – Fixed Rate	5.84%	14.20%
Corporate Bonds – Fixed Rate	94.16%	85.80%
	100.00%	100.00%

Ratings reflect the credit worthiness of an issuer of debt and changes in rating categories may affect the price of a debt security. At 31 December 2019 and 31 December 2018, the rating category of the FAB MENA Bond Fund's investment portfolio based on the Standard & Poor's rating criteria were:

	As at 31 December 2019	As at 31 December 2018
Rating	%	%
AA	6.91	-
A-	1.17	2.89
BBB+	0.77	-
BBB-	3.89	3.15
BB+	8.15	12.66
BB	1.72	10.84
B+	8.88	10.73
В	4.74	-
NR	63.77	59.73
Total	100.00	100.00

As at 31 December 2019 none of the debt securities held by the Funds were past due (31 December 2018: none).

### For the year ended 31 December 2019

### 3. Financial Risk Management (continued)

#### c) Credit Risk (Continued)

### Credit risk statement

Northern Trust Fiduciary Services (Ireland) Limited ("NTFSIL") is the appointed Depositary of the Fund, responsible for the safe-keeping of assets. NTFSIL has appointed The Northern Trust Company ("TNTC") as its global sub-custodian. Both NTFSIL and TNTC are wholly owned subsidiaries of Northern Trust Corporation ("NTC"). As at year end date 31 December 2019, NTC had a long term credit rating from Standard & Poor's of (A+). As at year end date 31 December 2018: same.

TNTC (as global sub-custodian of NTFSIL) does not appoint external sub-custodians within the U.S., the U.K., Ireland and Canada. However, in all other markets, TNTC appoints local external sub-custodians.

NTFSIL, in the discharge of its depositary duties, verifies the Fund's ownership of Other Assets, (as defined under Other Assets, Art 22(5) of UCITS V Directive 2014/91/EU), by assessing whether the Fund holds the ownership based on information or documents provided by the Fund or where available, on external evidence.

TNTC, in the discharge of its delegated depositary duties, holds in custody (i) all financial instruments that may be registered in a financial instruments account opened on the books of TNTC and (ii) all financial instruments that can be physically delivered to TNTC. TNTC ensures all financial instruments (held in a financial instruments account on the books of TNTC) are held in segregated accounts in the name of the Fund, clearly identifiable as belonging to the Fund, and distinct and separately from the proprietary assets of TNTC, NTFSIL and NTC.

In addition TNTC, as banker, holds cash of the Fund on deposit. Such cash is held on the Statement of Financial Position of TNTC. In the event of insolvency of TNTC, in accordance with standard banking practice, the Fund will rank as an unsecured creditor of TNTC in respect of any cash deposits.

Insolvency of NTFSIL and or one of its agents or affiliates may cause the Fund's rights with respect to its assets to be delayed or limited.

The Responsible Party manages risk by monitoring the credit quality and financial position of the Depositary and such risk is further managed by the Depositary monitoring the credit quality and financial positions of sub-custodian appointments.

### d) Liquidity Risk

Liquidity risk is the risk that the Funds may not be able to generate sufficient cash resources to settle their obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

Liquidity risk can exist when a particular instrument is difficult to purchase or sell. For example, if a derivative transaction is particularly large or if the relevant market is illiquid as is the case with many privately negotiated derivatives, it may not be possible to negotiate or liquidate a position at an advantageous price, or at all.

Liquidity is managed by investing predominantly in UCITS eligible listed securities that are traded in an active market and can be readily disposed.

In accordance with Company policy, the Investment Manager monitors the Funds' liquidity position on a daily basis. The directors of the Company rely on the Investment Manager to keep them informed of any material event. The Board is informed of any unusual liquidity issues on a timely basis. There were no material changes to the Company's policies and processes for managing liquidity risk and the methods used to measure risk during the year.

#### For the year ended 31 December 2019

#### 3. Financial Risk Management (continued)

#### d) Liquidity Risk (Continued)

In the interest of Shareholders, if the number of Shares to be redeemed on any dealing day exceeds 10% of the total number of Shares of a Fund in issue on that day or exceeds 10% of the Net Asset Value of the relevant Fund, the directors or their delegate may at their discretion refuse to redeem any Shares in excess of 10% of the total number of Shares in issue or any Shares in excess of 10% of the Net Asset Value of the relevant Fund as the case may be, and, if they so refuse, the requests for redemption on such dealing day shall be reduced pro rata and Shares which are not redeemed by reason of such refusal shall be treated as if a request for redemption had been made in respect of each subsequent dealing day until all Shares to which the original request related have been redeemed. Redemption requests which have been carried forward from an earlier dealing day shall (subject always to the foregoing limits) be complied with and processed prorata to later requests.

All Funds' financial liabilities settle within three months.

#### e) Operational Risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Company's processes and infrastructure, and from external factors other than market, credit, and liquidity issues such as those arising from legal and regulatory requirements and generally accepted standards to corporate behaviour.

Operational risks arise from all of the Company's operations. The Company was incorporated with the purpose of engaging in those activities outlined in the 'Background to the Company'. It is a self-managed Company with a Board of Directors who oversee all aspects of its operations while appointing reputable service providers listed on the 'Organisation' page to carry out investment management, administration and custody operations on behalf of the Company.

#### f) Fair Value Disclosures

IFRS 13 'Fair Value Measurement' requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities in the Statement of Financial Position. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

Determination of fair value hierarchy of financial instruments is based on the following criteria:

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical instruments.

As all equity securities use quoted unadjusted prices from an active market, all these are recorded in the pricing hierarchy table as level 1.

Level 2 - Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are not considered active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

As the swaps, structured notes and currency contracts derive their prices using market observable information, i.e. Libor rates, foreign exchange rates, underlying values of equities, these are recorded as level 2 securities.

Bond securities are priced by various broker prices which are not quoted directly on an exchange as these prices are generic (average of various broker quotes) and also include an element of calculation in each price. These securities are recorded as level 2.

Investment Funds are generally recorded in the pricing hierarchy as level 2 securities. Where there are exchange traded funds, these are recorded as level 1 securities.

Level 3 - Inputs are unobservable inputs for the asset or liability.

#### For the year ended 31 December 2019

#### 3. Financial Risk Management (continued)

#### f) Fair Value Disclosures (Continued)

This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instruments valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect difference between the instruments.

Level 3 instruments use inputs for valuation that are not based on observable market data (unobservable inputs). These will include securities in default.

The level in the fair value hierarchy within which a fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement.

#### Assets and liabilities not carried at fair value but for which fair value is disclosed:

IFRS 13 'Fair Value Measurement' requires that the Company must for each class of assets and liabilities not measured at fair value in the Statement of Financial Position but for which the fair value is disclosed, disclose the level within the fair value hierarchy which the fair value measurement would be categorised and a description of the valuation technique and the inputs used in the technique.

The fair value hierarchy levels for these assets and liabilities are as follows:

- (i) Cash and cash equivalents include cash in hand, deposits held with banks and other short-term investments in an active market (level 1).
- (ii) Amounts due from brokers and other receivables include the contractual amounts for settlement of trades and other obligations due to the Funds. Amounts due to brokers and accruals represent the contractual amounts and obligations due by the Funds for settlement of trades and expenses (level 2). The puttable value of Redeemable Participating Shares is calculated based on the net difference between total assets and all other liabilities of the Funds in accordance with each Fund's supplement. As such, level 2 is deemed to be the most appropriate categorisation for net assets attributable to Holders of Redeemable Participating Shares.

#### FAB MENA Dividend Leader Fund

The following is a summary of the fair valuations, according to the inputs as at 31 December 2019, in valuing the Fund's financial assets and financial liabilities:

Assets	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
<b>Financial Assets held for trading</b> Investments in Transferable Securities Investments in Financial Derivatives	30,192,354	3,210	-	30,192,354 3,210

#### For the year ended 31 December 2019

#### 12. Share Capital

The authorised share capital of the Company is 300,000 redeemable non-participating Shares of no par value and 500,000,000,000 participating Shares of no par value. The directors have the power to allot shares in the capital of the Company on such terms and in such manner as they may think fit.

The Rights attached to non-participating Shares are:

- The rights attaching to the Shares issued in any Class or Fund may, whether or not the Company is being wound up, be varied or abrogated with the consent in writing of the Shareholders of three-quarters of the issued Shares of that Class or Fund, or with the sanction of an ordinary resolution passed at a general meeting of the Shareholders of that Class or Fund.
- Shareholders may redeem their Shares on and with effect from any dealing day at the Net Asset Value per Share for that Class calculated on or with respect to the relevant dealing day (save during any period when the calculation of Net Asset Value is suspended).
- Shares carry right to receive a notice of, attend and vote at general meetings.
- Shares do not entitle the holders thereof to any dividend (with exception of the distributing Classes) and on a winding up entitle the holders thereof to receive the consideration paid therefore but do not otherwise entitle them to participate in the assets of the Company. The directors have the power to allot shares in the capital of the Company on such terms and in such manner as they may think fit.

The Company is required to have an initial capital of at least EUR 300,000 in line with the Central Bank UCITS Regulations issued by the Central Bank of Ireland. The Company satisfied the minimum capital requirement of EUR 300,000 during the years ended 31 December 2019 and 31 December 2018 respectively.

As at 31 December 2019, only the USD Accumulating Share Class, the USD Distributing Share Class, the AED Accumulating (Unhedged) Share Class, the AED Distributing (Unhedged) Share Class, the USD Distributing (Dhabi) Share Class and EUR Distributing (Hedged) Share Class of FAB MENA Dividend Leader Fund and the USD Distributing (unhedged) Share Class, the AED Accumulating Share Class and EUR Distributing (Hedged) Share Class of the FAB MENA Bond Fund were in existence in respect of these Funds.

The FAB Balanced Allocation Fund, the FAB Conservative Allocation Fund, and the FAB Growth Allocation Fund all have one Share Class in existence, this being the USD Share Class.

The FAB Shariah MENA Dividend Leader Fund has three Share Classes in existence, USD Distributing (Unhedged) Share Class, AED Distributing (Unhedged) Share Class and USD Accumulating Share Class (USD Accumulating Share Class closed on 5 February 2018).

### For the year ended 31 December 2019

### 14. Reconciliation of Net Assets Attributable to Holders of Redeemable Participating Shares

There was no difference between Net Assets Attributable to Holders of Redeemable Participating Shares as at the last valuation date and Net Assets Attributable to Holders of Redeemable Participating Shares per the financial statements.

### 15. Efficient Portfolio Management

The Company may, on behalf of each Fund, subject to the requirements of the Central Bank engage in techniques and instruments relating to transferable securities and money market instruments for efficient portfolio management purposes. Efficient portfolio management transactions relating to the assets of the Company may be entered into by the Investment Manager with one of the following aims: i) the reduction or stabilisation of risk; ii) the reduction of cost with no increase or a minimal increase in risk; iii) the generation of additional capital or income for the Fund with a level of risk consistent with the risk profile of the Fund and the diversification requirements in accordance with the Central Bank UCITS Regulation 9 "Eligible Assets and Investment Restrictions". Techniques and instruments such as derivative contracts, repurchase/reverse repurchase and stock lending agreements may be used for the purposes of efficient portfolio management. During the year and as at 31 December 2019, with the exception of the FAB MENA Dividend Leader Fund which held forward exchange contracts, and FAB MENA Bond Fund which held forward exchange contracts, details of which are contained in the Schedule of Investments, none of the other Funds were engaged in any efficient portfolio management activities.

### 16. Global Exposure

The Company calculates global exposure using the commitment approach as set out in the Central Bank of Ireland's Guidance Note 3/03. For FAB Balanced Allocation Fund, FAB Conservative Allocation Fund, FAB Growth Allocation Fund and FAB Shariah MENA Dividend Leader Fund, these Funds are not expected to be leveraged. However, in any event, a maximum leverage limit of 20% of each Fund's Net Asset Value will be applied (i.e. the Fund's total global exposure will not exceed 120% of the Fund's Net Asset Value). While for the FAB MENA Dividend Leader and FAB MENA Bond Funds, it is not expected that the leverage generated through the use of financial derivative instruments will exceed 100% of Net Asset Value of each Fund (i.e. each Fund's total global exposure will not exceed 200% of the Fund's total global exposure will not exceed 200% of the Fund's total global exposure will not exceed 200% of the Fund's total global exposure will not exceed 200% of the Fund's total global exposure will not exceed 200% of the Fund's total global exposure will not exceed 200% of the Fund's Net Asset Value). Global exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and time available to liquidate position. Since all of the Funds do not hold any financial derivatives with First Abu Dhabi Bank at the year end, their derivative global exposure at 31 December 2019 is 0% (31 December 2018: 0%). At 31 December 2019, the derivative global exposure of the FAB MENA Bond Fund was zero (31 December 2018: zero).

## 17. Transaction Costs

Transaction costs included in the cost of purchases and sales are detailed by Fund in the analysis below, the total of which amounted to USD 115,857 (31 December 2018: USD 225,655) for the year. These are already recognised in the Statement of Comprehensive Income as part of 'Net Gains on Financial Assets at Fair Value through Profit or Loss'. Only transaction costs which are separately identifiable are disclosed below. Depositary related transaction costs are included as part of the Depositary fees disclosed in Note 7.

	31 December 2019 Cost	31 December 2018 Cost

FAB Balanced Allocation Fund	10,352	1,661
FAB Conservative Allocation Fund	1,083	1,897
FAB Growth Allocation Fund	5,147	1,118
FAB Shariah MENA Dividend Leader Fund	11,158	32,987
TOTAL	115,857	225,655

### For the year ended 31 December 2019

### **18.** Significant Agreements

### **Directors' Fees**

The Articles of Association authorise the directors to charge a fee for their services at a rate determined by the directors. Such fees shall be up to a maximum of EUR 100,000 in aggregate per annum. Directors' fees are only applicable to the Irish resident directors. All directors will be entitled to reimbursement by the Company of expenses properly incurred in connection with the business of the Company or the discharge of their duties.

The directors' fees charged during the year and outstanding at the end of the year are disclosed in Note 7 and Note 11 respectively.

The Company has no employees (2018: None)

### Auditor Remuneration

The remuneration for all work carried out by the statutory audit firm in respect of the financial year is as follows:

	Year ended 31 December 2019 EUR	Year ended 31 December 2018 EUR
Statutory audit of the Company's financial statements	60,470	60,710
Tax advisory services	24,167	17,147
	84,637	77,857

Audit fees charged during the year and amounts payable at the year end are disclosed in Note 7 and Note 11 respectively. The auditors remuneration for the year ended 31 December 2019 and 31 December 2018 is in respect of work carried out by KPMG.

The fees and expenses payable out of each Fund are detailed below. In addition, each Fund shall bear its attributable portion of the fees and operating expenses of the Company.

#### **Investment Manager**

The Investment Manager, First Abu Dhabi Bank PJSC ("FAB") is entitled to receive out of the net assets of each Fund an annual fee not exceeding the following:

Fund	Fee %
FAB MENA Dividend Leader Fund	1.50
FAB MENA Bond Fund	1.00
FAB Balanced Allocation Fund	1.50
FAB Conservative Allocation Fund	1.25
FAB Growth Allocation Fund	1.50
FAB Shariah MENA Dividend Leader Fund	1.50

The annual fee will be calculated and accrued at each valuation point and payable monthly in arrears. FAB in its capacity as Investment Manager may at its discretion waive the whole or any part of its annual fee. Reasonable out-of-pocket expenses incurred by FAB in the performance of its duties as Investment Manager will be reimbursed by the Fund as may be approved from time to time by the directors.

### For the year ended 31 December 2019

### **18.** Significant Agreements (continued)

### The Shariah Advisor Fees

Pursuant to the Shariah Consulting Agreement, FAB Shariah MENA Dividend Leader Fund shall pay to the Shariah Advisor an annual fee of USD 20,000 for the services performed. The annual fees shall be payable on a quarterly basis in arrears for each calendar year of service. The Shariah Advisor will also be reimbursed by the Fund for any reasonable out-of-pocket expenses necessarily incurred in the performance of its duties. Fees are subject to change over time due to market conditions.

### **Performance Fees**

With respect to FAB MENA Dividend Leader Fund and FAB Shariah MENA Dividend Leader Fund in addition to the annual investment management fees payable to the Investment Manager, the Investment Manager shall be entitled to receive out of the assets of each Fund a performance fee (the "Performance Fee") in respect of each Class which will accrue on each valuation point and be paid annually in arrears at the end of each calculation period in an amount equal to "I".

"I" = 10% x "S" x "W"

Where;

"S" = the Excess Performance of the Fund which is the excess amount by which the Fund outperforms the Index with reference to the relevant calculation period (and in respect of the first calculation period is the increase of the Net Asset Value per Share from the initial offer price of the relevant Class).

"W"= the weighted average number of shares.

Where 'S' is zero or less, no charge is made.

There were no performance fees in the current year or prior period.

### **Global Distributor Fees**

With respect to FAB MENA Dividend Leader Fund, FAB Balanced Allocation Fund, FAB Conservative Allocation Fund, FAB Growth Allocation Fund and FAB Shariah MENA Dividend Leader Fund, subscription fees of up to 5% of the total subscription amount may be charged by the Global Distributor or any Local Distributor. With respect to FAB MENA Bond Fund, subscription fees of up to 3% of the total subscription amount may be charged by the Global Distributor amount may be charged by the Global Distributor or any Local Distributors. The Global Distributor may appoint multiple Local Distributors to provide services in different jurisdictions. Reasonable out-of-pocket expenses incurred by FAB in the performance of its duties as Global Distributor will be reimbursed by the Funds as may be approved from time to time by the directors. During the year ended 31 December 2019, no Global Distributor fees were charged to the above mentioned Funds (31 December 2018: Nil).

#### Administrator fees

Northern Trust International Fund Administration Services (Ireland) Limited is the Administrator, Registrar and Transfer Agent of the Company, pursuant to the Administration Agreement.

### **Fund Accounting Fees**

The Administrator is entitled to an annual fee paid monthly in arrears of:

0.05% on the first USD 200 million of the Company's Net Asset Value;

0.04% on the next USD 1.2 billion of the Company Net Asset Value; and

0.035% thereafter.

### For the year ended 31 December 2019

### 18. Significant Agreements (continued)

Administrator fees (continued)

### **Fund Accounting Fees (continued)**

Subject to a monthly minimum fee from the Company of:

USD 39,000 per month commencing 7 June 2017;

The apportionment of the Company's fees across the following Funds will be accrued based on AUM of each Fund at the end of each calendar quarter and approved by FAB :

FAB MENA Dividend Leader Fund

FAB MENA Bond Fund

FAB Balanced Allocation Fund

FAB Conservative Allocation Fund

FAB Growth Allocation Fund

FAB Shariah MENA Dividend Leader Fund

### **Financial Reporting Fees**

An annual fee paid monthly in arrears of :

- \$7,000 (which includes one Fund) and
- \$1,400 per additional Fund

### **Transfer Agency fees**

- An annual account maintenance and registration fee of \$75 per investor.
- An investor transaction fee (subscription, redemption or switch) of \$20 per transaction.
- A minimum additional Share Class per Fund fee of \$1,000.

### **Depositary fees**

The fees of the Depositary were borne by the Investment Manager. The Depositary was entitled to fees at the rate of 0.0125% of the Net Asset Value as well as any transaction related charges.

### **19. Related Party Transactions**

IAS 24 "Related Party Disclosures" requires the disclosure of information relating to material transactions with parties who are deemed to be related to the reporting entity.

### **Investment Manager**

Related parties include the Investment Manager. The amounts earned by the Investment Manager from the Company during the year and payable at the year end are stated in Note 7 and Note 11 respectively.

Omeir Jilani is currently Head of Alternative Investments within FAB's Global Markets Division.

## For the year ended 31 December 2019

### 19. Related Party Transactions (continued)

### **Investment Manager (continued)**

## Company Secretary, Designated Person and Money Laundering Reporting Officer

Ms. Yvonne Connolly is a Principal of Carne Global Financial Services Limited who provide company secretarial and compliance oversight services to the Company. Employees of Carne Global Financial Services Limited act as the Company Secretary, Designated Person and Money Laundering Reporting Officer to the Company.

Carne Global Financial Services Limited earned fees during the period in respect of other Fund governance services provided to the Company; the fees amounted to USD 113,337 (31 December 2018: USD 83,930).

#### Directors

The directors' fees charged during the year and outstanding at the end of the year are disclosed in Note 7 and Note 11 respectively. Please refer to Note 18 - 'Significant Agreements' for further details.

## **Cross Investments**

At 31 December 2019, the following Funds of the Company held investments in the FAB MENA Dividend Leader Fund and FAB MENA Bond Fund. These details are stated in the Schedule of Investments respectively. Investment management fees are not chargeable on the portion of cross investments held by the Funds. For more details please refer to Note 1g.

	FAB MENA Dividend Leader Fund No. of Shares 31/12/2019	FAB MENA Bond Fund No. of Shares 31/12/2019	FAB MENA Dividend Leader Fund No. of Shares 31/12/2018	FAB MENA Bond Fund No. of Shares 31/12/2018
FAB Balanced Allocation Fund	125,481	121,262	31,312	30,711
FAB Conservative Allocation Fund	3,887	22,785	5,700	32,066
FAB Growth Allocation Fund	85,603	17,638	49,266	10,750

## For the year ended 31 December 2019

### 19. Related Party Transactions (continued)

## **Cross Investments (continued)**

## Shareholding in Investment Manager

At 31 December 2019, there were no Funds that had a shareholding in the Investment Manager.

## Authorised Participant, Sub-Custodian and Distributor

First Abu Dhabi Bank PJSC acts as the Authorised Participant, Sub-Custodian and Distributor for the Company. Administrators and custodians are not considered to be related parties as all transactions are at arm's length and they exert no influence on how decisions are conducted in OneShare Plc.

### 20. Investment in Unconsolidated Structured Entities

FAB Balanced Allocation; FAB Conservative Allocation and FAB Growth Allocation Funds invest in structured entities which it does not consolidate. The structured entities are investment funds and the purpose of these vehicles is to manage assets on behalf of third party investors and to generate returns for the Investment Manager. These vehicles are financed through the issue of shares to investors. The Funds' interest in the vehicles is held by way of units issued by the vehicles.

The tables below set out interests held by the Funds in unconsolidated structured entities. The maximum exposure to loss is the carrying amount of the financial assets held.

As at 31 December 2019	Number of investee funds	Carrying amount included in financial assets at fair value through profit or loss USD	Total Net Assets USD (unaudited)
FAB Balanced Allocation Fund	3	1,773,325	220,530,460
FAB Conservative Allocation Fund	3	168,161	220,530,460
FAB Growth Allocation Fund	3	818,697	220,530,460
As at 31 December 2018			
FAB Balanced Allocation Fund	4	462,723	345,240,675
FAB Conservative Allocation Fund	4	237,020	345,240,675
FAB Growth Allocation Fund	4	515,072	345,240,675

During the year, the Funds did not provide financial support to unconsolidated structured entities and have no intention of providing financial or other support.

### For the year ended 31 December 2019

## 21. Distributions

The following distributions were declared during the year:

	Total Company^ Year ended 31 December 2019 USD	FAB MENA Dividend Leader Fund Year ended 31 December 2019 USD	FAB MENA Bond Fund Year ended 31 December 2019 USD	FAB Shariah MENA Dividend Leader Fund Year ended 31 December 2019 USD

# 23. Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. Therefore, the Company will not be liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event. A chargeable event includes any distribution payments to Shareholders or any encashment, redemption or transfer of Shares or the ending period for which the investment was held.

Generally, a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of Shares or the ending of a 'Relevant Period'. A 'Relevant Period' is an eight year period beginning with the acquisition of the Shares by the Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

### For the year ended 31 December 2019

### 23. Taxation (continued)

A chargeable event does not arise in respect of:

- (i) Any transactions in relation to Redeemable Participating Shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland;
- (ii) An exchange by a Shareholder, effected by way of an arm's length bargain where no payment is made to the Shareholder of Shares in the Company for other Shares in the Company;
- (iii) An exchange of Redeemable Participating Shares representing one Fund for another Fund of the Company;
- (iv) Certain exempted Irish tax resident investors who have provided the Company with necessary signed statutory declarations;
- (v) Certain exchanges of Shares between spouses and former spouses on the occasion of judicial separation and/or divorce.

A chargeable event will not occur in respect of Redeemable Participating Shareholders who are neither resident nor ordinarily resident in Ireland and who have provided the Company with a relevant declaration to that effect. There were no chargeable events during the year.

Capital gains, dividends and interest received may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its Shareholders.

In the absence of an appropriate declaration, the Company will be liable for Irish tax on the occurrence of a chargeable event and the Company reserves its right to withhold such taxes from the relevant Shareholders.

There were no soft commission arrangements affecting the Company during the year (31 December 2018: Nil).

### 24. Contingent liability

As at the year end date, the directors are not aware of any existing or contingent liability of any Fund of the Company.

#### 25. Significant Events during the Year

The following documents were noted by the Central Bank during the year.

The Second Addendum dated 11 February 2019 and the Third Addendum dated 26 November 2019 and as supplemented by Supplement 1 dated 13 July 2017 in relation to FAB Balanced Allocation Fund, Supplement 2 dated 13 July 2017 in relation to FAB Conservative Allocation Fund, Supplement 3 dated 13 July 2017 in relation to FAB Growth Allocation Fund, Supplement 4 dated 13 July 2017 in relation to FAB MENA Bond Fund, Supplement 5 dated 1 October 2019 in relation to FAB MENA Dividend Leader Fund and Supplement 6 dated 1 October 2019 in relation to FAB Shariah MENA Dividend Leader Fund.

There have been no other significant events during the year end which require disclosure in these financial statements.

### 26. Significant Events since the Year End

The following addendum documents were noted by the Central Bank after the financial year end of the accounts.

The Fourth Addendum, dated 2 January 2020, to the Prospectus of the Company, dated 13 July 2017, as amended by the First Addendum dated 30 November 2018.

The COVID-19 epidemic is believed to have originated in Wuhan, Hubei, China. While containment efforts were made to slow the spread of the epidemic the outbreak has now spread globally and has led to the World Health Organisation declaring the COVID-19 outbreak a pandemic on 11 March 2020.

The Board is aware that global financial markets have been monitoring and reacting to the outbreak. All markets have incurred increased volatility and uncertainty since the onset of the pandemic.

## For the year ended 31 December 2019

### 26. Significant Events since the Year End (continued)

The Board has also noted the operational risks that are posed to the Fund and its service providers due to global and local movement restrictions that have been enacted by various governments. COVID-19 pandemic is an unprecedented event and the eventual impact on the global economy and markets will largely depend on the scale and duration of the outbreak. The Board will continue to monitor this situation. The ultimate extent of the effect of this on the entity is not possible to estimate at this time.

A new fund, FAB MENA Plus Fixed Maturity Portfolio 2025 Series 1 fund was approved by the Board of Directors on 19 March 2020 to be launched during the year 2020.

There have been no other significant events since the year end which require disclosure in these financial statements.

### 27. Foreign Exchange Rates

The following exchange rates were used to convert assets and liabilities to the presentation currency of the Company and functional and presentation currency of all Funds at the reporting date: 1 USD =

The purchases and sales shown are trades above 1% of the total purchases and sales of the Fund for the year ended 31 December 2019.

## Appendix 1 - Remuneration Policy of OneShare Plc (Unaudited)

## The Fund

OneShare Plc ('the Company') is an open-ended umbrella investment company with segregated liability between sub-funds. The Company has been authorised by the Central Bank as an Undertaking for Collective Investments in Transferable Securities (UCITS) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the "UCITS Regulations").

The Company shall be managed and its affairs supervised by its Board of Directors. For details on each of the directors please refer to the Prospectus of the Company.

## 1. The Policy

The Company has established a remuneration policy in accordance with the requirements of Directive 2009/65/EC, as amended (the "UCITS Directive") to the extent that is appropriate to its size, internal organisation and the nature, scope and complexity of its activities.

The remuneration policy has been adopted by the non-executive members of the Board of Directors in their supervisory function, who have expertise in risk management and remuneration and any revisions to the remuneration policy require approval of such members.

It is the Company's policy to maintain remuneration arrangements that (i) are consistent with and promote sound and effective risk management, (ii) do not encourage risk-taking that is inconsistent with the risk profile of the Company, (iii) do not impair compliance with the Company's duty to act in the best interests of its shareholders and (iv) are consistent with the principles outlined in Appendix 1 to the remuneration policy. The Remuneration Policy is designed to ensure that any relevant conflicts of interest can be managed appropriately at all times.

The implementation of the remuneration policy will be subject to central and independent review at least annually to ensure compliance with and adherence to the policy.

The remuneration policy itself will be reviewed on an annual basis by the non-executive members of the Board in their supervisory function, who have expertise in risk management and remuneration.

### 2. Persons subject to the Policy

The Company shall apply the provisions of the Remuneration Policy to its 'Identified Staff' being "those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the management companies or of the UCITS that they manage".

The Company has determined that the following staff members would fall within the definition of "Identified Staff":

### Members of the Board of Directors

The 'Designated Persons' appointed to the Company from Carne Global Financial Services Limited ("Carne") to assist with the UCITS management functions

In accordance with paragraph 16 of the Guidelines on Sound Remuneration Policies under the UCITS Directive ESMA 2016/575 (the "ESMA Guidelines"), the Company will ensure that (a) the Identified Staff of any investment manager appointed by it to discharge investment management functions (including risk management) are subject to regulatory requirements on remuneration which are equally as effective as those applicable under the ESMA Guidelines or (b) contractual arrangements are in place between the Company and the relevant investment manager in order to ensure that there is no circumvention of the remuneration rules set down in the ESMA Guidelines.

The Company shall maintain a separate record of the remuneration regime applicable to each of its delegate investment managers. Where the delegate investment manager is subject to remuneration rules which are considered equally as effective as those applicable under the ESMA Guidelines, this shall include the relevant regulatory regime under which the delegate investment manager is authorised. Where the Company has appointed a delegate investment manager which is not subject to regulatory requirements on remuneration which are equally as effective as those applicable under the ESMA Guidelines, the Company shall maintain a record of the overview provided by the delegate investment manager of its remuneration regime, including any justification as to why its remuneration regime does not circumvent the provisions of the ESMA Guidelines.

# Appendix 1 - Remuneration Policy of OneShare Plc (Unaudited) (continued)

## 3. Remuneration of Identified Staff

The articles of association of the Company authorise the directors to charge a fee for their services at a rate determined by the directors. Such fees may not exceed a maximum of Euro 100,000 in aggregate per annum. This is a fixed fee with no variable component. Furthermore all directors are entitled to reimbursement by the Company of expenses properly incurred in connection with the business of the Company or the discharge of their duties. There are no fees payable to the Designated Persons by the Company. Further information on the fees payable to Carne Global Financial Services Limited is set out on page 112. The Directors fees are USD 60,929 and the Designated Person fees are USD 32,500. Staff engaged that receive fees are 4, 2 Directors and the 2 designated persons.

## 4. **Proportionality Principle**

As noted above, the Company must comply with the UCITS Directive remuneration principles in a way and to the extent that is appropriate to its size, its internal organisation and the nature scope and complexity of its activities. Accordingly, some UCITS can determine to meet the remuneration requirements through very sophisticated policies whereas others can do so in a simple and less burdensome way.

The Company does not pay any variable remuneration to any of its Identified Staff. Accordingly, the principles in respect of variable remuneration as outlined in the UCITS Directive are not applicable.

The Board has also determined that the remuneration committee requirement does not apply to the Company on the basis that the value of the Company does not exceed EUR 1.25 billion.

The Company also complies with the remainder of the remuneration rules set down in the UCITS Regulations in a manner which it considers proportionate taking into account the proportionality criteria set down in the ESMA Guidelines, as detailed in the Remuneration Policy.

## 5. Disclosure

The general principles of the Company's remuneration policy and the specific provisions for Identified Staff are disclosed internally and documented in the Remuneration Policy.

In addition, the Prospectus, KIID(s) and annual report of the Company will need to contain disclosure with respect to remuneration consistent with the UCITS Directive.

# Appendix 2 - Securities Financing Translation Regulation of OneShare Plc (Unaudited)

The Company did not engage in Securities Financing transactions during year.
