

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Global Dividend Maximiser

a sub-fund of Schroder International Selection Fund SICAV

Class A Distribution USD (LU0306807586)

This fund is managed by Schroder Investment Management (Luxembourg) S.A., which is a member of the Schroders Group.

Objectives and Investment Policy

Objectives

The fund aims to provide income by investing in equities or equity related securities of companies worldwide.

Investment Policy

At least two-thirds of the fund's assets (excluding cash) will invest in equities of companies worldwide, which are selected for their income and capital growth potential. The fund has no bias to any particular industry or size of company.

The fund generates its income from two sources; dividends and cash received from selling some of the potential capital growth on the equities held in the fund on a rolling basis.

The fund may invest directly in China B-Shares and China H-Shares and may invest up to 10% of its assets in China A-Shares through Shanghai/Shenzhen-Hong Kong Stock Connect.

The fund may invest in derivatives in order to achieve the investment objective, to reduce risk or manage the fund more efficiently. The fund may also hold cash on deposit.

The strategy will typically underperform a similar portfolio without derivatives in periods when the underlying stock prices are rising, and outperform when the underlying stock prices are falling.

Benchmark

This share class is managed with reference to the MSCI World TR Net financial index. The manager invests on a discretionary basis and is not limited to investing in accordance with the composition of this benchmark.

Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution Policy

This share class pays a quarterly distribution at a fixed rate of 7% per annum of the value per share. The distribution policy is kept under review.

Risk and Reward Profile

The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

The following risks may affect fund performance.

Counterparty risk: The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the fund, potentially creating a partial or total loss for the fund.

Currency risk: The fund can be exposed to different currencies. Changes in foreign exchange rates could create losses.

Derivatives risk: Derivatives are used to generate income (which is paid to investors) and to reduce the volatility of returns but they may also reduce fund performance or erode capital value.

Derivatives risk: A derivative may not perform as expected, and may create losses greater than the cost of the derivative.

Equity risk: Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

Operational risk: Failures at service providers could lead to disruptions of fund operations or losses.

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect risk: The fund may be investing in China "A" shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may involve clearing and settlement, regulatory, operational and counterparty risks.

Capital risk / distribution policy: Because the fund intends to pay dividends regardless of its performance, a dividend may include a return of part of your original investment.

Charges

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	None
Charges taken from the fund over a year	
Ongoing Charge	1.86%
Charges taken from the fund under certain specific conditions	
Performance fee	None

This is the maximum that might be taken out of your money before it is invested.

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2017 and may vary from year to year.

You can find more information about the charges in Section 3 of the fund's prospectus.

Past Performance

1 This share class was managed with reference to the MSCI All Countries World TR Net index until December 2010.

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in US dollar after the ongoing charges and the portfolio transaction costs have been paid. Entry charges are excluded from calculations of past performance.

The fund was launched on 13 July 2007.

Practical Information

Depository: J. P. Morgan Bank Luxembourg S.A.
