

Dynamic Multi-Asset Fund USD (Hedged)

M RETAIL CLASS INCOME II SHARES

Fund Description

Dynamic Multi-Asset Fund is a broad, cross-asset investment strategy that applies PIMCO's macro and relative value views across liquid markets. It invests across global asset classes including equity, credit, interest rate, FX and real asset markets. The Fund is a dynamic, holistic investment portfolio that aims to generate attractive risk-adjusted returns for investors over a market cycle.

Potential Investor Benefits

- Top-down, fundamental approach to dynamic asset allocation
- An asymmetric approach to risk seeking to smooth the path of returns
- A time-tested, seasoned investment team with average 15+ years investment experience and full access to PIMCO's global resources
- A focus on liquidity, transparency and risk management which are at the core of portfolio construction at PIMCO

Potential Fund Advantage

PIMCO's global investment insights and portfolio management talent, combined with the fund's tactical management style, may enhance return potential as asset class returns are expected to be increasingly divergent.

Risk and Reward profile

Credit and Default Risk: A decline in the financial health of an issuer of a fixed income security can lead to an inability or unwillingness to repay a loan or meet a contractual obligation. This could cause the value of its bonds to fall or become worthless. Funds with high exposures to non-investment grade securities have a higher exposure to this risk.

Commodities Risk: The value of commodity related investments may fluctuate substantially due to changes in supply and demand and/or due to political, economic or financial events. **Currency Risk:** Changes in exchange rates may cause the value of investments to decrease or increase. **Equity Risk:** The value of equity or equity related securities may be affected by stock market movements. Drivers of price fluctuations include general economic and political factors as well as industry or company specific factors. **Derivatives and Counterparty Risk:** The use of certain derivatives could result in the fund having a greater or more volatile exposure to the underlying assets and an increased exposure to counterparty risk. This may expose the fund to larger gains or losses associated with market movements or in relation to a trade counterparty being unable to meet its obligations. **Emerging Markets Risk:** Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk. Investments in these markets may expose the fund to larger gains or losses. **Liquidity Risk:** Difficult market conditions could result in certain securities becoming hard to sell at a desired time and price. **Interest Rate Risk:** Changes in interest rates will usually result in the values of bond and other debt instruments moving in the opposite direction (e.g. a rise in interest rates likely leads to fall in bond prices). **Mortgage Related and Other Asset Backed Securities Risks:** Mortgage or asset backed securities are subject to similar risks as other fixed income securities, and may also be subject to prepayment risk and higher levels of credit and liquidity risk.

ABOUT THE BENCHMARK

The fund is considered to be actively managed in reference to the below benchmark as further outlined in the prospectus and key investor information document.

ICE BofA SOFR Overnight Rate Index tracks the performance of a synthetic asset paying SOFR to a stated maturity. The index is based on the assumed purchase at par of a synthetic instrument having exactly its stated maturity and with a coupon equal to that days fixing rate. That issue is assumed to be sold the following business day (priced at a yield equal to the current day fixing rate) and rolled into a new instrument. It is not possible to invest directly in an unmanaged index.

Unless otherwise stated in the prospectus or in the relevant key investor information document, the Fund is not managed against a particular benchmark or index, and any reference to a particular benchmark or index in this factsheet is made solely for risk or performance comparison purposes. †

Marketing Communication

This is a marketing communication. This is not a contractually binding document and its issuance is not mandated under any law or regulation of the European Union or the United Kingdom. This marketing communication does not include sufficient detail to enable the recipient to make an informed investment decision. Please refer to the Prospectus of the UCITS and to the KIID before making any final investment decisions.

[†] Differences in the Fund's performance versus the index and related attribution information with respect to particular categories of securities or individual positions may be attributable, in part, to differences in the pricing methodologies used by the Fund and the index.

Except for performance and currency exposure, statistics and breakdowns shown are for the fund and are not specific to the share class. Annualised Distribution Yield is as of last month ending 07/31/2023. Negative allocations may result from derivative positions and unsettled trades and does not imply the fund is short cash, is levered, or that the derivatives are not fully cash backed. Duration is the sensitivity of a fixed income security to a change in interest rates. The longer the duration of a fixed income security, the higher its sensitivity to interest rates. Duration Weighted Exposure (DWE%) is the percentage weight of each sector's contribution to the overall duration of the fund. Morningstar ratings are shown for funds with 4 or 5 star ratings only. Other share classes ratings are either lower or unavailable. A rating is not a recommendation to buy, sell or hold a fund. Copyright © 2023 Morningstar Ltd. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results.

Past Performance is not a guarantee or reliable indicator of future results and no guarantee is being made that similar returns will be achieved in the future.
